GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 191L.—8th February, 1946.—The following Statement of the reasons which have moved the Governor of Bengal to enact the Bengal Tanks Improvement (Amendment) Act, 1946, in exercise of the powers assumed to himself by the Proclamation, dated the 31st day of March, 1945, issued under section 93 of the Government of India Act, 1935, is published for general information:—

Statement.

The Bengal Tanks Improvement Act, 1939, was enacted with the object of improving irrigation tanks for the purpose of providing additional irrigation facilities in those areas which are frequently affected by drought. Experience of the working of the Act has shown that it is almost impossible to recover, on a voluntary basis, the requisite rates in respect of water drawn for irrigation purposes from tanks improved under the Act. It has also been found that full advantage cannot be taken of the improvement of a tank by reason of the omission from the Act of any provision permitting the irrigation of areas which are not, in terms of the record-of-rights, entitled to irrigation from such tank. There is, moreover, no provision in the Act for obtaining the possession of land adjoining a derelict tank, even though such possession may be essential to the improvement of the tank itself. Certain other minor defects in the Act have also come to light. In order, therefore, to improve the operation of this valuable measure, the Bengal Tanks Improvement (Amendment) Bill, 1944, was introduced in the Bengal Legislative Assembly and was referred to a Select Committee on the 19th December, 1944. The Committee proceeded with its deliberations, but was unable to conclude them by reason of the Proclamation issued by the Governor under section 93 of the Government of India Act, 1935, on the 31st March, 1945.

2. The issue of the Proclamation has not affected either the necessity for or the urgency of the amendments proposed. There is at present in contemplation a scheme for the improvement of about 5,000 tanks during the financial year 1946-47, and unless the defects mentioned above are removed by an amendment of the parent Act, it will not be practicable to implement this scheme. The draft Bill was published in the *Calcutta Gazette* on the 29th November, 1945, for the purpose of eliciting public opinion thereon. As a result of the publication certain further changes have been incorporated in the amending Act, but these are of a very minor character and do not affect the substance of the original Bill.

NOTIFICATION.

No. 193L.—8th February, 1946.—The following Statement of the reasons which have moved the Governor of Bengal to enact the Bengal Co-operative Societies (Amendment) Act, 1946, in exercise of the powers assumed to himself by the Proclamation, dated the 31st day of March, 1945, is published for general information:—

Statement.

In the *Calcutta Gazette* of the 15th March, 1945, there was published a Bill to amend the Bengal Co-operative Societies Act, 1940 (Bengal Act XXI of 1940), for the purpose (1) of enabling Government to impose upon Assistant Registrars the duties entrusted to the Registrar under sections 86, 87 and 134 of the Act, read with the Fourth Schedule thereto, (2) of removing any conflict between the provisions of section 51 of the Act and those of section 7(*2*)(*j*) of the Payment of Wages Act, 1936 (IV of 1936), by amending the former section so as to exclude from the operation thereof persons employed upon Federal Railways or in mines or oil fields, and (3) of rectifying a printing error in section 56 of the Act. This Bill could not be introduced in the Provincial Legislature owing to the intervention of the Proclamation issued by the Governor under section 93 of the Government of India Act, 1935. The necessity, however, of amending the Act on these lines remains, and accordingly a second Bill was published in the *Calcutta Gazette* of the 20th December, 1945, for the purpose of eliciting an expression of public opinion thereon. This Bill embodied the provisions contained in the earlier Bill, and also included (*a*) a provision designed to enable disputes to be entertained whether the relevant claim be admitted or not, and (*b*) a provision validating action taken in the past by, or proceedings commenced in the past before, Assistant Registrars under sections 86, 87 and 134 of the Act read with the Fourth Schedule thereto. No objections or suggestions have been received in respect of this Bill; and the necessity for and the urgency of the measure has not been affected by the issue of the Proclamation. The Governor has accordingly assented to the enactment of the Bill as a Provincial Act.

Bengal Act VII of 1946

THE BENGAL SLUM IMPROVEMENT (AMENDMENT) ACT, 1946.

[Assent of the Governor was first published in the *Calcutta Gazette, Extraordinary* of the 5th March, 1946.]

NOTIFICATION.

No. 203L.—9th February, 1946.—The following Statement of the reasons which have moved the Governor of Bengal to enact the Bengal Slum Improvement (Amendment) Act, 1946, in exercise of the powers assumed to himself by the Proclamation, dated the 31st day of March, 1945, issued under section 93 of the Government of India Act, 1935, is published for general information:—

Statement.

Section 17 of the Bengal Slum Improvement Act, 1945 (Bengal Act XVI of 1945), provides, for the purposes of the Calcutta Municipal Act, 1923 (Bengal Act III of 1923), for the distribution of rights in land in those Calcutta slum areas in which improvements have been effected in terms of the former Act. One of the objects of this section is to treat the owner of any such land as the occupier of all drains provided on it for more than one hut or other building, in so far as such drains form part of such improvements. Owing to a clerical error, the words "more than" have been omitted from the section as enacted; and this omission adversely affects the operation of the section itself.

For the purpose of rectifying the omission referred to above, this Act has been enacted by the Governor of Bengal in exercise of the powers assumed to himself by the said Proclamation.

WHEREAS an emergency has arisen which renders it necessary to make special provision in regard to certain offences;

NOW, THEREFORE, in exercise of the powers conferred by section 72 of the Government of India Act, as set out in the Ninth Schedule to the Government of India Act, 1935 (26 Geo. 5, c. 2), the Governor General is pleased to make and promulgate the following Ordinance:—

1. Short title, extent and commencement.—(*1*) This Ordinance may be called the Criminal Law Amendment Ordinance, 1946.

(*2*) It extends to the whole of British India, and applies also to British subjects and servants of the Crown in any part of India and to British subjects who are domiciled in any part of India wherever they may be.

(*3*) It shall come into force at once.

2. Special rules of evidence.—(*1*) In any trial of or inquiry by a Court into an offence specified in the Schedule, the fact that an accused person is in possession, for which he cannot satisfactorily account, of pecuniary resources or property disproportionate to his known sources of income, or that he has, at or about the time of the alleged offence, obtained an accretion to his pecuniary resources or property for which he cannot satisfactorily account, may be proved and may be taken into consideration by the Court as if it were a relevant fact within the meaning of the Indian Evidence Act, 1872 (I of 1872).

(*2*) Where in any trial of or inquiry by a Court into an offence punishable under section 161 or section 165 of the Indian Penal Code (XLV of 1860), it is proved that an accused person has accepted or obtained, or has agreed to accept or attempted to obtain, for himself or for any other person, any gratification (other than legal remuneration) or any valuable thing from a person or the agent of a person seeking to obtain facilities for transport, or holding or seeking to obtain a contract from His Majesty's Government in the United Kingdom or in any part of His Majesty's dominions, or the Central or a Provincial Government or a department of any such Government or a local authority, or from any person acting on behalf of any such Government or department or authority, it shall be presumed unless the contrary is proved that he accepted or obtained, or agreed to accept or attempted to obtain, that gratification or that valuable thing as the case may be, as a motive or reward such as is mentioned in the said section 161 or, as the case may be, without consideration or for a consideration which he knows to be inadequate.

...relating to sentences and the powers of Courts to impose sentences, where any person is found guilty of an offence specified in the Schedule, the Court convicting him, whether or not it imposes a sentence of imprisonment, shall impose, in addition to such sentence of fine, if any, as it would otherwise have imposed, a further sentence of fine which shall be equivalent to the amount of money or value of other property found by the Court to have been procured by the convicted person by means of the offence.

(*2*) Except where the offence of which the person is found guilty is an offence specified in item 1 or item 5 of the Schedule, when it appears that the offence has caused loss to more than one Government referred to in the Schedule or local authority, the Court shall in its order of conviction record a finding indicating the amount of loss sustained by each such Government or local authority.

(*3*) When a person is found guilty at the same trial or in the same proceedings of one or more offences specified in item 1 or item 5 of the Schedule and of one or more offences specified in any of the other items of the Schedule, the Court shall in its order of conviction record a finding indicating separately the amounts procured by means of the two classes of offences.

(*Note.*—On an average of the five years ending 1943-44, the area under summer rice in Bengal has represented some 0·6 per cent. of the total area under rice in India.)

Character of the season.—Early sowings were delayed in certain districts due to excessive rainfall in October last. Later on, continued drought from November till the middle of March hampered cultivation and adversely affected the growth of the crops almost everywhere. Some damage at places was reported to have been suffered by the crops due to lack of rains.

Acreage.—The areas sown with different rabi (1) food crops and (2) non-food crops dealt with in this forecast are estimated at (1) 3,486,500 acres and (2) 684,000 acres this year, as against (1) 3,697,800 acres and (2) 564,300 acres (revised) respectively of last year and as against the total estimated normal areas of (1) 3,033,300 acres and (2) 593,700 acres (revised).

The total food crops acreage this year shows a decrease by about 5·7 per cent. as compared with that of last year and the decrease under summer rice is about 2·6 per cent. The area under summer rice is estimated to be 542,900 acres this year as against 557,500 acres (revised) of last year. The area under tobacco is estimated to be 174,000 acres this year, as against 165,600 acres (revised) of last year.

Outturn.—The average outturn of the different rabi crops is estimated to be 71 per cent. of the normal this year as against 78 per cent. of the normal last year.

Summer rice and tobacco crops.—The average outturn of summer rice (boro) for the province works out to 79 per cent. of the normal this year, as against 87 per cent. of the normal last year. The gross yield of the crop, on the basis of the normal yield of 13·6 maunds of clean rice per acre, is estimated at 214,300 tons this year, as against 242,200 tons (revised) of last year.

The outturn of tobacco works out to 74 per cent. of the normal this year, as against 78 per cent. of the normal last year.

Taking 1,151 lbs. or 14 maunds as the normal yield of tobacco per acre, the gross yield of the crop for the province works out to 66,200 tons this year, as against 66,400 tons (revised) of last year.

PART I—Orders and Notifications by the Governor of Bengal, the High Court, Government Treasury, etc.

Office of the Secretary to His Excellency the Governor of Bengal.

NOTIFICATION.

No. 740-H.—18th March 1946.—The following is republished for general information:—

Office of the Private Secretary to His Excellency the Viceroy.

NOTIFICATION.

No. 90-H.—His Excellency the Viceroy has been pleased to award the Indian Police Medal to the following officer:—

BENGAL.

Name of officer and rank.—Meher Shah, Head Constable, 24-Parganas.

Statement of services for which the decoration has been awarded.—On the 19th December 1945, Head Constable Meher Shah accompanied the officer-in-charge of Jagatdal Police Station, 24-Parganas, during the latter's investigation of a dacoity case. While the Sub-Inspector was engaged in the investigation, the complainant of the case, who had become mentally deranged, suddenly and unexpectedly made a murderous attack on him with a "dao". The assailant was about to deal another blow, which might well have proved fatal, but Head Constable Meher Shah with great presence of mind and at considerable risk to himself felled the assailant with a lathi, disarmed him and took him into custody. His courageous action was thus instrumental in saving the life of his superior officer.

This award is made for gallantry under regulation (*d*)(*i*) of the Regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

G. E.-B. ABELL, Private Secy.

By order of the Governor,
J. D. TYSON,
Secretary to the Governor.

Provided that the Board shall not—

(a) supply electricity for any purpose directly to any licensee for use in any part of the area of supply of a bulk-licensee without the consent of the bulk-licensee, unless the licensee to be supplied has an absolute veto on any right of the bulk-licensee to supply electricity for such purpose in the said part of such area, or unless the bulk-licensee is unable or unwilling to supply electricity for such purpose in the said part of such area on reasonable terms and conditions and within a reasonable time; or

(b) supply electricity for any purpose to any person, not being a licensee, for use in any part of the area of supply of a licensee without the consent of the licensee, unless the licensee is unable or unwilling to supply electricity for such purpose in the said part of such area on reasonable terms and conditions and within a reasonable time.

21. Power to Board to conduct investigations.—Subject so far as the provisions of this section relate to water-power to the previous approval of the Provincial Government, the Board may at its own expense conduct

such investigations, experiments and trials as it thinks fit for the improvement of the methods of transmission, distribution and supply of electricity or of the utilisation of fuel, water-power or other means of generating electricity, and may establish and maintain laboratories for the testing and standardisation of electrical instruments and equipment.

22. Loans by Board to licensees.—(1) Subject to any regulations made in this behalf, the Board may make advances to any licensee for the purposes of his undertaking on such terms as the Board thinks proper.

CHAPTER IV.

The Board's Works and Trading Procedure.

27. Preparation of schemes.—With a view to rationalising the production and supply of electricity in any area the Board may from time to time prepare a scheme, not inconsistent with this Act, for that area, in which provision may be made for all or any of the following matters, namely:—

(a) the establishment of the Board's own generating stations;

(b) the designation of generating stations, whether existing stations or new stations, as controlled stations at which electricity shall be generated for the purposes of the Board;

(c) the interconnection, by means of main transmission lines to be constructed or acquired by the Board, of any generating stations with any others and with any systems of licensees;

(d) where a scheme relates to a specified area, the interconnection of the system of the Board in that area with the system of the Board in any other area with respect to which a scheme is in being or may subsequently be made;

(e) the construction or acquisition of such other main transmission lines as the scheme may require;

(f) the use by the Board of any transmission lines or main transmission lines of any licensee;

(g) such supplemental, incidental and consequential provisions as may appear necessary or expedient for any of the purposes aforesaid:

Provided that a scheme shall not, without the consent of the owner,—

(i) designate as a controlled station any generating station belonging to a person other than a licensee;

(ii) authorise the use or acquisition of a transmission line or a main transmission line belonging to a person other than a licensee.

28. Publication and sanctioning of schemes.—(1) The Board shall cause every scheme prepared under section 27 to be published in the official Gazette and in such local newspapers as it may consider necessary, and shall give public notice of the date, not being less than two months after the date of the notice, by which licensees and other persons interested may make representations thereon.

(2) The Board, after considering any such representations and after making such inquiries, if any, as it thinks fit, may sanction the scheme either without modification or subject to such modifications as it thinks fit, and either generally or in respect of any part of the area specified in the published scheme, and shall publish the scheme as sanctioned by it; and where the scheme has been sanctioned in respect of part of the said area, it may subsequently be sanctioned in respect of other parts of that area:

Provided that no sanction shall be accorded by the Board to any scheme or part of a scheme estimated to result in a capital expenditure exceeding twenty-five lakhs of rupees without prior consultation with the Central Technical Power Board and until any recommendations which that Board may, in accordance with the provisions of this Act, make upon such consultation have received due consideration by the Board.

(3) In respect of any scheme to which the proviso to sub-section (2) applies, the Board shall, within one month after being requested by the Central Technical Power Board so to do, supply that Board with all such information incidental or supplementary to the scheme as may be specified in the request.

29. Matters to be considered by Central Technical Power Board.—The Central Technical Power Board shall, before making any recommendations in respect of a scheme upon which it has been consulted under the priviso to sub-section (2) of section 28, have particular regard to whether or not in its opinion—

(a) any river-works proposed by the Board will prejudice the prospects for the best ultimate development of the river or its tributaries for power-generation, consistent with the requirements of irrigation, navigation and flood-control, and for this purpose the Central Technical Power Board shall satisfy itself that an adequate study has been made of the optimum location of dams and other river-works;

(b) the proposed scheme will prejudice the proper combination of hydro-electric and thermo-electric power necessary to secure the greatest possible economic output of electric power;

(c) the proposed main transmission lines will be reasonably suitable for regional requirements;

(d) the scheme provides reasonable allowances for expenditure on capital and revenue account;

(e) the estimates of prospective supplies of electricity and revenue therefrom contained in the scheme are reasonable.

30. Recommendations of Central Technical Power Board.—Where the Central Technical Power Board has been consulted under the proviso to sub-section (2) of section 28 in respect of a scheme, it shall forward its recommendations thereon to the Board, sending a copy thereof to the Provincial

Government, within six months from the date of the receipt by it of the scheme:

Provided that if the Board fails to supply in due time any information requested under sub-section (3) of section 28, the period within which the Central Technical Power Board shall forward its recommendations shall be correspondingly increased.

31. Carrying out of schemes.—The Board shall carry out and give effect to a scheme as soon as reasonably practicable after it has been sanctioned and published.

32. Power to alter or extend schemes.—The Board may from time to time alter or extend a scheme by a supplementary scheme made and sanctioned in the manner hereinbefore provided:

Provided that any alterations or extensions of a scheme which are in the opinion of the Board minor in character may be made without preparing a supplementary scheme.

33. Controlled stations.—Where a generating station situate within an area for which a scheme is in force has been designated in the scheme as a controlled station, the relations between the Board and the licensee owning the station shall, subject to any arrangements agreed under section 46, be regulated by the provisions of the First Schedule.

34. Supply by the Board to licensees owning generation stations.—The Board may at any time declare to a licensee owning a generating station, other than a controlled station, situate within an area for which a scheme is in force that it is ready to make a supply of electricity available to the licensee for the purposes of his undertaking, and thereupon but without prejudice to the provisions of section 46, the provisions of the Second Schedule shall apply in respect of the relations between the Board and the said licensee.

35. Power Board to close down generating stations.—The Board may at any time declare to a licensee owning a generating station situate within an area for which a scheme is in force that the station shall be permanently closed down, and thereupon but without prejudice to the provisions of section 46, where the station is a controlled station the provisions of Part III of the First Schedule, or in other cases the provisions of the Third Schedule, shall apply in respect of the relations between the Board and the said licensee with reference to the station to be closed down.

36. Purchase of generating stations or main transmission lines by the Board.—(1) Where under the First or Third Schedule any generating station is to be purchased by the Board, or where a sanctioned scheme provides for the purchase by the Board of a main transmission line belonging to any licensee,—

(a) the generating station from such date of purchase as may be fixed under the appropriate schedule, or the main transmission line from such date of purchase as the Board shall, by notice in writing given not less than one month before the said date, intimate to the licensee, shall vest in the Board free, save as provided in sub-section (2), from any debt, mortgage, lien or other similar obligation of the licensee or attaching to the station or line, as the case may be, and any such debt, mortgage, lien or obligation shall, save as aforesaid, attach to the purchase-money in substitution of the station or line;

(b) without prejudice to the provisions of section 46, the Board shall pay, or tender payment of, the price to be determined in accordance with the Fourth Schedule as soon as the amount thereof has been determined, together with interest on such amount from the date of purchase to the date of payment or tender of payment as aforesaid at the rate of one *per centum* over the average of the Reserve Bank rates between the said dates;

(c) the receipt of the licensee shall, notwithstanding anything in any other law, be a full and sufficient discharge to the Board for the payment due in respect of the purchase.

(2) Where a generating station or main transmission line purchased by the Board under this Act is in course of construction, extension or repair at the date of purchase, the rights and liabilities of the former owner thereof under any contract for such construction, extension or repair shall be transferred to the Board.

(3) Notwithstanding anything contained elsewhere in this Act, where any generating station purchased by the Board under this Act contains any plant or apparatus which, while the station was in operation, were used jointly for the purposes of generation and transmission or distribution or wholly for the purposes of transmission or distribution, then unless otherwise agreed between the Board and the licensee, such plant or apparatus shall not be purchased by the Board but shall remain the property of the licensee.

37. Provision of new generating stations.—The Board may itself establish a new generating station in any area in which it is required by any sanctioned scheme to be situated, or may make arrangements with any licensee or other person for the establishment of a new generating station required by a sanctioned scheme.

38. Operation of Board's generating stations.—Where the Board itself establishes a new generating station or acquires a generating station otherwise than for the purpose of closing it down, it may operate the station itself or make arrangements with any licensee or other person for its operation.

39. Provision regarding connections with main transmission lines purchased by the Board.—Where the Board has purchased a main transmission line and by reason of the user thereof by the Board the alteration or replacement of switchgear or other apparatus of any licensees connected with the line becomes necessary, the Board shall defray the reasonable expenses incurred by the licensees in effecting such alteration or replacement; and any question whether such alteration or replacement is necessary or whether the expenses incurred in connection therewith are reasonable shall in default of agreement be determined as provided under section 74.

40. Use by Board of transmission lines.—(1) Where the Board considers it necessary to use for any of its purposes any transmission line or main transmission lines of a licensee, the Board shall have power to use such lines to the extent to which the capacity thereof is surplus to the requirements of the licensee for the transmission of electricity, on payment of charges calculated in accordance with the provisions of the Fifth Schedule.

(2) The Board may, by agreement with any licensee or other person, use any transmission line or main transmission line of that licensee or person for such time and upon such terms as may be agreed.

41. Powers to Board for placing wires, poles, etc.—Notwithstanding anything contained in sections 12 to 16 and 18 and 19 of the Indian Electricity Act, 1910 (IX of 1910), but without prejudice to the requirements of section 17 of that Act, where provision in such behalf is made in a sanctioned scheme, the Board shall have, for the placing of any wires, poles, wall-brackets, stays, apparatus and appliances for the transmission and distribution of lectricity, or for the transmission of telegraphic or telephonic communications necessary for the proper co-ordination of the works of the Board, all the powers which the telegraph authority possesses under Part III of the Indian Telegraph Act, 1885 (XIII of 1885), with regard to a telegraph established or maintained by the Government or to be so established or maintained:

Provided that where a sanctioned scheme does not make such provision as aforesaid, all the provisions of section 12 to 19 of the first-mentioned Act shall apply to the works of the Board.

42. Power to Board to enter into arrangements for purchase or sale of electricity under certain conditions.—(1) The Board may enter into arrangements with any person producing electricity within the Province for the purchase by the Board on such terms as may be agreed of any surplus electricity of which that person may be able to dispose.

(2) Where a sanctioned scheme so provides, the Board may, on such terms as may be agreed, enter into arrangements with any Government or person for the purchase or sale of electricity to be generated or used outside the Province:

Provided that the Board may not enter into such arrangements with any such Government or person without the consent of the Provincial Government, or into arrangements with any such person without the consent of the Government of the Province within which the electricity is to be generated or used.

43. Restriction of establishment of new generating stations or major additions or replacement of plant in generating stations.—(1) Notwithstanding anything contained in any other law for the time being in force or in any licence but subject to the provisions of this Act, it shall not be lawful for a licensee, or any other person not being a Federal Railway administration except with the previous consent in writing of the Board, to establish or acquire a new generating station or to extend or replace any major unit of plant or works pertaining to the generation of electricity in a generating station:

Provided that such consent shall not, except in relation to a controlled station, be withheld unless within three months from the date of receipt of an application—

(a) for consent to the establishment or acquisition of a new generating station, the Board—

(i) gives to the applicant being a licensee an undertaking that it is competent to, and will, within eighteen months from the said date afford to him a supply of electricity equivalent to that required by him pursuant to his application, or

(ii) shows to the applicant good and sufficient reasons for a belief that the electricity required by him pursuant to his application could be more economicallly obtained within a reasonable time from another appropriate source;

(b) for consent to the extension or replacement of any major unit of plant or works as aforesaid, the Board—

(i) gives to the applicant being a licensee an undertaking that within eighteen months from the said date either the station to which the application pertains will become a controlled station in terms of section 33, or the Board will make a declaration to the applicant in terms of section 34 offering him a supply of electricity equivalent to that required by him pursuant to his application, or the Board will make a declaration to him in terms of section 35, or

(ii) shows to the applicant good and sufficient reasons for a belief that the electricity required by him pursuant to his application could be more economically obtained within a reasonable time from another appropriate source or by other appropriate means.

(2) There shall be stated in every application under this section such particulars as the Board may reasonably require of the station, plant or works, as the case may be, in respect of which it is made, and where consent is given thereto, in acting in pursuance of such consent, the applicant shall not, without the further consent of the Board, make any material variation in the particulars so stated.

44. Power to Board to enter upon and shut down generating stations in certain circumstances.—(1) If any licensee fails to close down his generating stations pursuant to a declaration of the Board under section 35, or if any person establishes or acquires a new generating station or extends or replaces any plant or works in any generating station in contravention of section 43, the Board may authorise any of its officers to enter upon the premises of such station and shut down the station or the plant or works, as the case may be, in respect of which the failure or contravention has occurred.

(2) Any expenses incurred by the Board under this section shall be recoverable by it from the licensee or person concerned as an arrear of land revenue, and for such purpose the Board shall be deemed to be a public officer within the meaning of section 5 of the Revenue Recovery Act, 1890 (I of 1890).

45. The Grid Tariff.—(1) A tariff to be known as the Grid Tariff shall, in accordance with any regulations made in this behalf, be fixed from time to time by the Board in respect of each area for which a scheme is in force, and tariffs fixed under this section may, if the Board thinks fit, differ for different areas.

(2) Without prejudice to the provisions of section 46, the Grid Tariff shall apply to sales of electricity by the Board to licensees where so required under any of the First, Second and Third Schedules, and shall, subject as hereinafter provided, also be applicable to sales of electricity by the Board to licensees in other cases:

Provided that if in any such other case it appears to the Board that the transmission expenses involved in affording the supply would be unreasonable having regard to the magnitude of the supply required, the Board may make such additional charges as it considers appropriate.

(3) The Grid Tariff shall be so framed as to include as part of the charge, and show separately a fixed kilowatt charges component and a running charges component:

Provided that if in respect of any area the electricity to be sold by the Board is wholly or substantially derived from hydro-electric sources, the running charges component may be omitted.

(4) The fixed kilowatt charges component in the Grid Tariff may be framed so as to vary with the magnitude of maximum demand.

(5) Where only a portion of a licensee's maximum demand for the purposes of his undertaking is chargeable at the Grid Tariff, the price payable for that portion shall not be greater than the smallest price which would have been payable for any equivalent portion had the whole of the said maximum demand of the licensee been chargeable at the Grid Tariff.

(6) The Grid Tariff may contain provisions for—

(a) adjustment of price having regard to the power factor of supply taken or the cost of fuel or both;

(b) a minimum charge related to a past or prospective demand of a licensee on the Board.

(7) The Grid Tariff may contain such other terms and conditions, not inconsistent with this Act and the regulations, as the Board thinks fit.

46. Power to Board to make alternative arrangements with licensees.—Notwithstanding anything contained in sections 33 to 36 and sub-section (2) of section 45 but subject to any regulations made in this behalf, the Board may make such arrangements as may be mutually agreed with any licensee whose area of supply is situate within an area for which a scheme is in force, in regard to the purchase or sale of electricity and the price thereof, or the purchase, operation or control of any generating station or main transmission line:

Provided that in making any such arrangement the Board shall not show undue preference to any licensee.

47. Power to licensee to carry out arrangements under this Act.—Where under any provision of this Act the Board is authorised or required to enter into arrangements with any licensee for any purpose, then notwithstanding anything contained in any law or in any license, memorandum of association or other instrument regulating the constitution or powers of the licensee, it shall be lawful for the licensee to enter into and carry out any such arrangements.

48. Provision for the sale of electricity by the Board to persons other than licensees.—Subject to the provisions of this Act and of any regulations made in this behalf, the Board may supply electricity to any person not being a licensee upon such terms and conditions as the Board may from time to time fix having regard to the nature and geographical position of the supply and the purposes for which it is required:

Provided that in fixing any such terms and conditions the Board shall not show undue preference to any person.

49. Board not to supply electricity in certain circumstances.—Nothing contained in sections 33, 34 and 35 shall apply in any case where under section 18, it is not permissible for the Board to supply electricity directly to a licensee owning a generating station; and nothing in sections 45, 46 and 48 shall empower the Board to supply electricity directly to any licensee or person to whom it is not otherwise entitled so to supply electricity.

50. Provisional payments.—Where the price to be paid for electricity by or to the Board under this Act cannot be finally ascertained until after the end of a year of account, the amount to be paid shall be ascertained as soon as practicable thereafter, but the party from whom the payment is due shall make to the other monthly payments on account of the net amounts due in accordance with estimates made for the purpose, subject to adjustment as soon after the end of the year of account as the actual liability can be ascertained.

51. Lower limit of power factor in supply by Board.—Unless otherwise agreed between the Board and the licensee, no supply of electricity taken by a licensee from the Board under this Act shall be taken at an average power factor below 0·85 during the period of maximum demand of the licensee in any month, and in the event of the average power factor as aforesaid being lower than 0·85, the licensee shall within a reasonable time take such measures, the cost of which shall not be borne by the Board, as may be necessary to raise it to a value not lower than 0·85.

52. Provision of accommodation and right of way.—(1) Where the Board for the purposes of any arrangements which it has made with any licensee under this Act requires accommodation on, in, under or over the premises of the licensee for any works or apparatus to be provided by the Board, the licensee shall, if suitable and sufficient accommodation exists and unless otherwise agreed, grant such accommodation free of cost to the Board, or if such accommodation does not exist, it shall be provided upon such terms and conditions as may be agreed between the Board and the licensee.

(2) The Board and any licensee shall at all times have a right of access to their own property on, in, over and under the property of the other.

53. Power to Board to connect meters, etc., to apparatus of licensees.—The Board shall have power to connect with the apparatus of any licensee any such correct meters, switch-gear and other equipment as may be necessary, to enable it to carry out the provisions of this Act, and such meters, switch-gear and other equipment shall, unless otherwise agreed, be provided and maintained by the Board at its own cost.

54. Licensees to comply with Board's directions.—Every licensee owning a generating station shall comply with such reasonable directions as the

Board may from time to time give him for the purpose of achieving the maximum of economy and efficiency in the operation of the station.

55. Leases of generating stations.—(1) No licensee shall, except with the previous approval in writing of the Board and subject to any conditions which the Board may think fit to impose, enter into any arrangement for his benefit whereby any generating station is to be let or held on lease by him, and any such arrangement entered into in contravention of this sub-section shall be void and of no effect.

(2) Where any arrangement as aforesaid is subsisting on the date of the notification under sub-section (3) of section 1, the licensee shall, within three months from the said date, submit the terms of the arrangement to the Board.

56. Licensees' charges to consumers.—(1) After the issue of the notification under sub-section (3) of section 1, the provisions of the Sixth Schedule and the Table appended to the Seventh Schedule shall be deemed to be incorporated in the licence of every licensee, not being a local authority, from the date of the commencement of the licensee's next succeeding year of account, and from such date the licensee shall comply therewith accordingly and any provisions of such licence or of the Indian Electricity Act, 1910 (IX of 1910), or any other law, agreement or instrument applicable to the licensee shall, in relation to the licensee, be void and of no effect in so far as they are inconsistent with the provisions of this section and the said Schedule and Table.

(2) Where the provisions of the Sixth Schedule and the Table appended to the Seventh Schedule are under sub-section (1) deemed to be incorporated in the licence of any licensee, the following provisions shall have effect in relation to the said licensee, namely:—

(a) The Board may at any time of its own accord, and shall when requested so to do by the licensee, constitute a rating committee to examine the licensee's charges for the supply of electricity and to recommend thereon to the Provincial Government:

Provided that no rating committee shall be constituted in respect of a licensee within three years from the date on which such a committee has reported in respect of that licensee, unless the Provincial Government declares that in its opinion circumstances have arisen rendering the orders passed on the recommendations of the previous rating committee unfair to the licensee or any of his consumers.

(b) A rating committee shall consist of two members of the Board, one of whom shall be Chairman of the committee and one of whom shall be experienced in accounting and financial matters, together with one representative co-opted by them from a licensees' association of which the licensee concerned is or is eligible to be a member, or if there is no such association, from such Chamber of Commerce or like body as the Board may direct.

(c) The rating committee shall, after giving the licensee a reasonable opportunity of being heard, report to the Provincial Government making recommendations (and giving reasons therefor) regarding the charges for electricity which the licensee may make to any class or classes of consumers:

Provided that the committee shall not recommend any alteration in a licensee's charges for electricity which would in its reasonable estimation result in preventing the licensee from earning clear profits sufficient when taken with the sums available in Tariffs and Dividends Control Reserve A to afford him a reasonable return during his next three succeeding years of account.

Explanation.—For the purposes of this clause, the expressions "clear profits", "Tariffs and Dividends Control Reserve A" and "reasonable return" have the meanings respectively assigned to them in the Sixth Schedule.

(d) Within one month after the receipt of the report under clause (c) the Provincial Government shall cause the report to be published in the official Gazette, and may at the same time make an order in accordance therewith fixing the licensee's charges for the supply of electricity with effect from such date, not earlier than two months or later than three months after the date of publication of the report, as may be specified in the order; and the licensee shall forthwith give effect to such order:

Provided that nothing in this clause shall be deemed to prevent a licensee from reducing at any time any charges so fixed.

57. Power to Board to direct amortisation and tariffs policies of licensees being local authorities.—The Board shall have power to direct the amortisation and tariffs policies of any licensee, being a local authority, with respect to his licensed undertaking in such manner as the Board, after giving the local authority a reasonable opportunity of being heard, considers expedient for the purposes of the Act; and the licensee, being a local authority, the provisions of any other law or of any rules made or directions given thereunder notwithstanding, shall give effect to any such directions of the Board.

(2) All expenditure which the Provincial Government may, not later than two months after the first constitution of the Board, declare to have been incurred before the issue of the notification under sub-section (3) of section 1 on capital account in connection with the purposes of this Act shall be deemed to be a loan advanced to the Board under section 63 on the date of the said declaration, and all the assets acquired by such expenditure shall thereupon vest in the Board.

60. Annual financial statement.—(1) In February of each year the Board shall submit to the Provincial Government a statement in the prescribed form of the estimated capital and revenue receipts and expenditure for the ensuing year.

(2) The said statement shall include a statement of the salaries of members, officers and servants of the Board and of such other particulars as may be prescribed.

(3) The Provincial Government shall as soon as may be after the receipt of the said statement cause it to be laid on the table of the Chamber, or as

the case may be, Chambers of the Provincial Legislature; and the said statement shall be open to discussion therein, but shall not be subject to vote.

(4) The Board shall take into consideration any comments made on the said statement in the Provincial Legislature, but shall not be required to defer any expenditure which is in its opinion urgent pending the receipt and consideration of such comments.

(5) The Board may at any time during the year in respect of which a statement under sub-section (1) has been submitted submit to the Provincial Government a supplementary statement, and all the provisions of this section shall apply to such statement as they apply to the statement under the said sub-section.

61. Restriction on unbudgeted expenditure.—(1) Save where in the opinion of the Board circumstances of extreme urgency have arisen, no sum exceeding ten thousand rupees on account of recurring expenditure or exceeding fifty thousand rupees on account of non-recurring expenditure shall be expended by the Board unless such sum has been included in a statement submitted under sub-section (1) or sub-section (5) of section 60.

(2) Where any such sum is expended under circumstances of extreme urgency, a report thereon indicating the source from which it is proposed to meet the expenditure shall be made as soon as practicable to the Provincial Government.

62. Subventions to the Board.—The Provincial Government may from time to time make subventions to the Board for the purposes of this Act on such terms and conditions as the Provincial Government may determine.

Provided that no such rules and no term or condition imposed under this section or under section 63 shall authorise or require the Board to amortise in any way any loan taken by it, and no law for the time being in force shall be deemed to authorise or require the Board so to do.

THE FIRST SCHEDULE.

(See sections 33 and 35.)

Arrangements in respect of controlled stations.

PART I.

Assumption of control.

1. (1) The Board shall by notice in writing to the licensee fix a date (hereafter in this Schedule referred to as the date of control), being the first day of a year of account of the licensee, and from such date the licensee

shall, except where prevented by causes beyond his control, be under obligation—

(a) subject to such directions as the Board may from time to time give him, to keep the station at all times in good and substantial repair and condition and ready for use, together with adequate staff for operating, maintaining and controlling the station, and not to make any substantial alterations or renewals in, or remove any essential or substantial part of, the station without the consent in writing of the Board;

(b) to operate the station so as to generate such quantity of electricity with such units of plant at such rates of output and at such times, or to cease to generate electricity during such periods, as the Board may direct;

(c) to carry out as soon as may be practicable such reasonable extensions, alterations or renewals of the station or any part thereof as the Board may from time to time direct;

(d) to supply to the Board all the electricity generated at the station.

(2) For complying with any direction under sub-paragraph (1) requiring extensions or alterations of the station or any part thereof, the Board may, if it considers it expedient and practicable so to do, advance on loan upon such terms as it may determine, and the licensee shall accept from the Board upon such terms, the money required to meet the cost of such extensions or alterations:

Provided that the principal of loans so advanced by the Board and the interest thereon shall be charged upon the undertaking and all the revenues of the licensee and no such loan shall be amortised in any way by the licensee:

Provided further that if at the date of purchase of the station under this Act or of the licensee's undertaking under the Indian Electricity Act, 1910 (IX of 1910), the said principal or any part thereof remains unrepaid through due for redemption or is not on that date due for redemption, then any sum payable by the purchaser as a percentage on account of compulsory purchase under this Act or the said Act shall be reduced by an amount which bears the same proportion to that sum as the amount of the said principal or part thereof remaining unrepaid or not being due for redemption as aforesaid bears to the total of the ordinary, preference and debenture capital of the licensee.

Explanation.—In this sub-paragraph, the expressions "ordinary capital", "preference capital" and "debenture capital" have the meanings respectively assigned to them in the Sixth Schedule.

(3) In the event of any active employees of the licensee being temporarily not required for the purposes of operating, maintaining or controlling the generating station, the licensee may for the time being transfer them to his distribution staff; and if he so transfers any such employee the excess (if any) of his wages appropriate to his duties connected with the generating station over his wages appropriate to his duties connected with distribution shall be paid by the Board to the licensee as part of the costs to be ascertained under paragraph 4.

2. From the date of control the Board shall, except where prevented by causes beyond its control, be under obligation to supply to the licensee, and the licensee shall be under obligation to take from the Board, the whole of the electricity required by the licensee for the purposes of his undertaking, except such quantity of electricity as the licensee may for the time being be entitled under paragraph 3 to purchase from a source other than the Board or as he may be generating in another station, not being a controlled station.

3. Unless otherwise agreed between the board and the licensee, the licensee shall not, where he has received a notice under paragraph 1 purchase after the date of control any quantity of electricity from a source other than the Board:

Provided that where on the date of the receipt of such notice the licensee is bound under any contract to purchase any quantity of electricity from some other source, he may, for a period not exceeding two years after the date of control or for such further period, if any, as the Board may allow, continue to purchase electricity under the said contract from such other source.

4. The Board shall pay to the licensee, whether or not any electricity is generated at the station, the costs ascertained in accordance with the provisions of the Eighth Schedule.

5. The price to be paid by the licensee for electricity supplied by the Board shall be determined in the manner provided in the appropriate Part of this Schedule.

6. The points at which electricity to be supplied under this Schedule shall be delivered by the Board and the licensee respectively shall, unless otherwise agreed between the Board and the licensee, be at the generating station, and the pressure of the supplies shall be such as the Board and the licensee may agree.

7. Where any licensee owns more than one controlled station—

(a) such of the several controlled stations as are interconnected shall, for the purposes of this Schedule, be deemed to comprise a single controlled station, and unless the subject or context otherwise requires, the provisions of this Schedule shall be construed as if the word "combined" had been inserted before the word "station" or the words "generating station" wherever they occur;

(b) the electricity supplied at the several controlled stations by the licensee to the Board, or by the Board to the licensee, shall each respectively be treated as single supplies;

(c) in the application of clause (a) of paragraph 12, the costs of production at each of the several controlled stations shall be separately ascertained, and in the application of clause (c) of the said paragraph—

(i) the sums ascertained in accordance with clause (a) of paragraph 1 of the Eighth Schedule in respect of each of the several controlled stations shall be separately allocated between fixed costs and running costs, and

(ii) the sum of the several fixed costs and the sum of the several running costs shall be the fixed costs and the running costs respectively of the combined station;

(d) in directing the operation of the combined station under clause (b) of sub-paragraph (1) of paragraph 1, the Board shall have regard to the nature and capacity of the licensee's transmission system interconnecting the several controlled stations and to the requirements of the licensee at each of those stations.

8. In the event of the licensee failing, except where prevented by causes beyond his control, to perform or continue to perform any obligation imposed upon him under this Part, the Board may give notice to him in writing that on the first day of the licensee's next succeeding year of account the generating station will be purchased by the Board, and on such day the Board shall purchase the station at a price determined in accordance with the Fourth Schedule; and thereafter—

(a) all the provisions of this Schedule except paragraph 2 and this paragraph shall, in relation to the licensee, cease to have effect;

(b) the Board shall supply the licensee with the electricity required by him under paragraph 2 at such price and on such conditions as the Board may determine.

PART II.

Price to be paid for electricity supplied by the Board under Part I.

9. There shall be agreed between the Board and the licensee in respect of each month of the licensee's year of account—

(a) the maximum capacity of the station, that is to say, the maximum capacity (expressed in kilowatts available for supply to feeders) of such plant and works appertaining to the generation of electricity at the station as were available for reliable and regular commercial operation on the first day of the month, including the capacity of such plant and works as were temporarily out of commission;

(b) the number and size of units of plant and works, forming part of the aforesaid plant and works, which ought properly to be deemed to be standby if the station were not a controlled station;

(c) the standby capacity of the station, that is to say, the number of kilowatts (expressed in kilowatts available for supply to feeders) by which the maximum capacity of the station would be reduced if the standby plant and works referred to in clause (b) were to be left out of account;

(d) the actual effective capacity of the station, that is to say, the number of kilowatts by which the maximum capacity exceeds the standby capacity.

10. (1) The licensee shall be entitled to purchase from the station in each month at a price determined under paragraph 13 a number of kilowatts not exceeding, the scheduled effective capacity of the station on the first day of that month as determined in sub-paragraph (2).

(2) The scheduled effective capacity of the station shall be agreed between the Board and the licensee in respect of each month of the year of account, and shall be computed in the same manner as the actual effective capacity under paragraph 9, except that there shall be left out of account such units of plant and works, if any, forming part of the plant and works referred to in clause (a) of the said paragraph, as the licensee declares to be surplus to his requirements for the time being:

Provided that the licensee shall not declare to be surplus to his requirements any such units of plant or works as were installed or were on order at the date of control or which were included in any previous computation of the scheduled effective capacity:

Provided further that if as a result of the licensee declaring as surplus to his requirements any units of plant or works, the scheduled effective capacity is in respect of any month computed to be less than the maximum demand of the licensee on the station for the purposes of his own undertaking, then such units of plant or works and all further additional units of plant or works shall thereafter always be deemed to be surplus to the requirements of the licensee as aforesaid.

11. The licensee shall be entitled to purchase from the Board in each month at a price determined under paragraph 13 a number of kilowatt-hours not exceeding the number of kilowatt-hours which bears the same proportion to the total number of kilowatt-hours purchased by the licensee from the Board in the month as the scheduled effective capacity for the month bears to the maximum demand of the licenses on the Board in that month:

Provided that if the station is a hydro-electric station or if any unit of a combined station is a hydro-electric unit, the number of kilowatt-hours which the licensee shall be entitled to purchase as aforesaid shall be reduced by such amount, if any, as may be agreed between the Board and the licensee, having regard to the number of kilowatt-hours actually supplied in the month from such hydro-electric station or unit.

12. As soon as practicable after the end of a year of account—

(a) there shall be ascertained in respect of that year the cost of production at the station in accordance with the provisions of the Eighth Schedule;

(b) there shall be deducted from the total sum ascertained in respect of that year under clauses (b), (c), (d), (e), and (f) of paragraph 1 of the Eighth Schedule, such proportion of the charges referred to in the said clauses as are wholly attributable to so much of the plant and works, if any, as has been declared by the licensee under sub-paragraph (2) of paragraph 10 to be surplus to his requirements, and the balance remaining after such deduction shall for the purposes of this Schedule be referred to as the scheduled overhead charges:

Provided that in assessing the said proportion regard shall be had to the period during which any such plant or works were declared to be surplus as aforesaid;

(c) there shall be allocated between fixed costs and running costs in accordance with the provisions of the Ninth Schedule the sum ascertained in respect of that year under clause (a) of paragraph 1 of the Eighth Schedule, and the amount of running costs divided by the number of kilowatt-hours supplied from the station in that year shall for the purposes of this Schedule be referred to as the running charges component;

(d) there shall be ascertained in respect of that year an amount (in this Schedule referred to as the scheduled fixed works costs) calculated from the expression, "$\frac{A}{2} + \frac{A}{2} \times \frac{B}{C}$" where—

A = the amount of fixed costs ascertained in respect of that year under clause (c);

B = the sum of the scheduled effective capacities for each month of that year;

C = the sum of the actual effective capacities for each month of that year.

13. The licensee shall pay to the Board in respect of each month of the year of account for the electricity purchased under paragraphs 10 and 11—

(a) in respect of kilowatts, a sum equal to one-twelfth of the sum of the scheduled overhead charges and the scheduled fixed works costs;

(b) in respect of kilowatt-hours a sum found by multiplying the number of kilowatt-hours supplied by the running charges component:

Provided that if in any year of account the station for any reason ceases to generate electricity for one thousand hours or more, then for the purposes of ascertaining the running charges component and the scheduled fixed works costs under clauses (c) and (d) respectively of paragraph 12—

(i) the said clause (c) shall be construed as if there were substituted for the words "that year" in both places where they occur, the words "the most recent year of account in which the station did not cease to generate electricity for one thousand hours or more" and as if to the said clause the following proviso were added, namely:—

"Provided that so much of the said sum as is represented by the cost of fuel shall be adjusted to take account of the cost which would have been incurred had that fuel been consumed at the prices prevailing in the actual year of account";

(ii) in evaluating the expression contained in the said clause (d), the letter C shall be deemed to be equal to the sum of the actual effective capacities for each month of the most recent year of account in which the station did not cease to generate electricity for one thousand hours or more:

Provided further that if in any year of account there exist in the station any units of plant or works which have been declared by the licensee under sub-paragraph (2) of paragraph 10 to be surplus to his requirements in that year, there shall be added to the running charges component in respect of that year the amount, if any, by which that part of the said component

attributable to the cost of fuel is less than ninety *per centum* of the corresponding part of the running charges component in respect of the year of account immediately preceding that in which earliest installed of the said units of plant or works first came into commercial operation in the station, and in ascertaining the corresponding part as aforesaid, the fuel consumed shall be deemed to be of the same average quality and to be consumed at the same average cost per ton as the fuel consumed in the year of account:

Provided further that if in respect of any month of the year of account any units of plant or works previously declared by the licensee as aforesaid to be surplus to his requirements are for the first time taken into account in assessing the scheduled effective capacity for that month, then in addition to the payment referred to in clause (a) the licensee shall pay to the Board a sum equal to any sums previously paid by the Board to the licensee on revenue account (in respect of any period prior to the date on which the said units of plant or works came into commission) by way of interest, depreciation, testing and tuning-up expenses attributable to the said units of plant or works; and the sum to be paid as aforesaid shall become due in one or more instalments and at such time or times as the Board may direct.

14. The price payable by the licensee to the Board for all electricity supplied by the Board to him in excess of the quantities referred to in paragraphs 10 and 11 shall be the Grid Tariff.

15. The licensee shall have the right at any time, on giving to the Board prior notice in writing expiring at the end of any year of account, to purchase from the Board at the Grid Tariff the whole of the electricity supplied to him by the Board:

Provided that the Board in those circumstances may make it a condition that the licensee shall, until the date on which the scheduled effective capacity of the station becomes nil, pay to the Board in respect of each month in addition to the Grid Tariff one-twelfth of such proportion as the Board may fix of the annual charges by way of interest and depreciation which would have been payable to the Board in respect of the year of account had the said notice not been given:

Provided further that in assessing the scheduled effective capacity for the purposes of the first proviso all units of plant or works which may have been under this Schedule declared or deemed to be surplus to the requirements of the licensee at the date of the expiration of the said notice and all additional units of plant or works shall after that date always be deemed to be surplus to the requirements of the licensee:

Provided further that after the expiration of the said notice the licensee shall not be entitled any time to purchase electricity from the Board at the price ascertained under paragraph 13.

PART III.

Permanent closing down of a controlled station.

16. The Board may give the licensee not less than six months' notice in writing expiring at the end of any year of account that from the first day of the next succeeding year of account it will not again direct the licensee to generate any electricity in the station, and upon that date (hereinafter in this Schedule referred to as the date of closing down) the station shall be permanently closed down.

17. From the date of closing down paragraphs 1, 4 and 8 shall, in relation to the station, cease to have effect, and on receipt of the notice under paragraph 16 the licensee shall have the option (to be exercised by a date not later than three months prior to the date of closing down) either—

(a) (i) to sell the station for his own benefit at any time after the date of closing down, and

(ii) to purchase the electricity supplied to him by the Board at the Grid Tariff, or

(b) (i) to require the Board to purchase the station at the date of closing down at a price determined under the Fourth Schedule, and

(ii) to purchase the electricity supplied to him by the Board in accordance with the provisions of Part II as modified by paragraph 18.

18. Where a licensee exercises his option under paragraph 17 in terms of clause (b) thereof, the Board shall comply with the requirement to purchase the station under sub-clause (i) of that clause, and in applying the provisions of Part II to the purchase by the licensee of electricity supplied to him by the Board,—

(a) the station shall, notwithstanding that it has been permanently closed down, be deemed to remain a controlled station in operation but to be such a station which has ceased to generate electricity for one thousand hours or more during each year of account;

(b) clause (a) of paragraph 9 shall be construed as if the following were substituted therefor, namely:—

"(a) the maximum capacity of the station, that is to say, the maximum capacity (expressed in kilowatts available for supply to feeders) of such plant and works appertaining to the generation of electricity at the date of closing down as would have been available for reliable and regular commercial operation on the first day of each month, had the station not been closed down under Part III and had no replacement of any major item of such plant or works been carried out:"

(c) clause (a) of paragraph 12 shall be construed as if the following were substituted therefor, namely:—

"(a) there shall be ascertained in respect of the year of account such annual charges by way of interest and depreciation attributable to the assets purchased by the Board under Part III as would have resulted from the application of clauses (e) and (f) of paragraph 1 of the Eighth Schedule had those assets remained in the ownership of the licensee;"

(d) clause (b) of paragraph 12 shall be construed as if the reference therein to clauses (b), (c) and (d) of paragraph 1 of the Eighth Schedule were omitted;

(e) there shall be added to the sum payable by the licensee to the Board under clause (a) of paragraph 13 in each month of the year of account a sum equal to one-twelfth of the amount calculated from the expression, "$\frac{A \times B}{C}$" where—

A = that part of the scheduled overhead charges payable by the licensee to the Board in respect of the most recent year of account during which the station did not cease to generate electricity for one thousand hours or more, which relates to the items referred to in clauses (b), (c) and (d) of paragraph 1 of the Eighth Schedule;

B = the sum of the scheduled effective capacities for each month of the year of account;

C = the sum of the scheduled effective capacities for each month of the most recent year of account as aforesaid.

PART IV.

Purchase by Board of controlled station not to be closed down.

19. Where in respect of any month notified by the Board (and hereinafter in this Schedule referred to as the relevant month), the scheduled effective capacity of the station is computed under paragraph 10 to be less

than one-half of the actual effective capacity of the station, the Board may give to the licensee six months' notice in writing that on the first day of the year of account next following the date of expiration of such notice the station will be purchased by the Board.

20. Notwithstanding anything contained in paragraph 10, in computing the Scheduled effective capacity for purposes of paragraph 19 there shall be left out of account all such units of plant and works as would not reasonably have been required by the licensee for purposes other than supply to the Board had the station not been a controlled station.

21. Where a notice under paragraph 19 has been served by the Board on the licensee, the Board shall purchase the station at the date specified in the notice and at a price determined under the Fourth Schedule.

22. From the date of purchase of the station under paragraph 21 the provisions of paragraphs 1, 4 and 8 shall, in relation to the station, cease to have effect, and the licensee shall be required to purchase the electricity supplied to him by the Board in accordance with the provisions of Part II as modified by paragraph 23.

23. In applying the provisions of Part II to the purchase by a licensee whose station has been purchased under this Part of electricity supplied to him by the Board,—

(a) the station shall, notwithstanding that it has been purchased by the Board, be deemed to remain a controlled station;

(b) clause (a) of paragraph 12 shall be construed as if the reference therein to the provisions of the Eighth Schedule excluded a reference to clauses (b), (c) and (d) of paragraph 1 of that Schedule, and as if the following proviso were added to the said clause (a), namely:—

"Provided that the annual charges to be included in accordance with clauses (e) and (f) of paragraph 1 of the said Schedule shall be such as would have resulted had the assets purchased by the Board under Part IV remained in the ownership of the licensee";

(c) clause (b) of paragraph 12 shall be construed as if the reference therein to clauses (b), (c) and (d) of paragraph 1 of the Eighth Schedule were omitted:

(d) there shall be added to the sum payable by the licensee to the Board under clause (a) of paragraph 13 in each month of the year of account a sum equal to one-twelfth of the amount calculated from the expression, "$\frac{A \times B}{C}$" where—

A = that part of the scheduled overhead charges payable by the licensee to the Board in respect of the last year of account in which the station was in the ownership of the licensee, which relates to the items referred to in clauses (b), (c) and (d) of paragraph 1 of the Eighth Schedule;

B = the sum of the scheduled effective capacities for each month of the year of account;

C = the sum of the scheduled effective capacities for each month of the said last year of account.

THE SECOND SCHEDULE.

(See section 34.)

Supply by Board to licensees owning stations other than controlled stations.

1. Before the end of each year the Board shall declare to the licensee in respect of each of the two next succeeding years the maximum number of kilowatts which it will make available for the purpose of the licensee's undertaking.

2. Where the Board and the licensee agree that the number of kilowatts declared under paragraph 1 will be inadequate to meet the requirements of the licensee having regard to the capacity of the licensee's generating plant, the Board shall not refuse its consent under section 43, the provisions of that section notwithstanding, to the installation by the licensee of such generating plant as he may reasonably require for the purposes of his undertaking, unless the Board is able appropriately to amend its declaration.

3. The licensee shall be entitled to demand from the Board, and the Board shall, except where prevented by causes beyond its control, be under obligation to supply to the licensee, a maximum number of kilowatts in each year not exceeding, without the consent of the Board, the maximum number of kilowatts declared under this Schedule in respect of that year.

4. The point at which the electricity to be supplied under this Schedule shall be delivered to the licensee shall, unless otherwise, agreed between the Board and the licensee, be at the licensee's generating station, and the pressure of supply shall be such as may be agreed between the Board and the licensee.

5. The Board shall bear the whole of the cost of the service apparatus required for making the supply under this Schedule available to the licensee.

6. The price to be paid by the licensee to the Board in respect of each year for electricity supplied under this Schedule shall be the Grid Tariff.

THE THIRD SCHEDULE.

(See section 35.)

Closing down of generating stations other than controlled stations.

1. Where the Board proposes under section 35 permanently to close down a generating station other than a controlled station, it shall give the licensee owning the station not less than six months' notice in writing expiring at the end of any year of account that from the first day of the next succeeding year of account (hereafter in this Schedule referred to as the date of closing down) the station shall be permanently closed down.

2. From the date of closing down the Board shall be under obligation to supply to the licensee, except where prevented by causes beyond its control, and the licensee shall be under obligation to take from the Board, the whole of the electricity required by the licensee for the purposes of his undertaking, except such quantity of electricity as the licensee may for the time being be entitled under paragraph 3 to purchase from a source other than the Board or as he may be generating in another station, not being controlled station.

3. Unless otherwise agreed between the Board and the licensee, the licensee shall not, where he has received a notice under paragraph 1, purchase after the date of closing down any quantity of electricity from a source other than the Board:

Provided that where on the date of the receipt of such notice the licensee is bound under any contract to purchase any quantity of electricity from some other source, he may, for a period not exceeding two years after the date of closing down or for such further period, if any, as the Board may allow, continue to purchase electricity under the said contract from such other source.

4. (1) The point at which electricity to be supplied by the Board shall be delivered to the licensee shall, unless otherwise agreed between the Board and the licensee, be at the licensee's generating station, and the pressure of supply shall be such as may be agreed between the Board and the licensee.

(2) The Board shall bear the whole of the cost of the service apparatus required for making the supply available to the licensee.

5.—The licensee shall have the option, to be exercised by a date not later than three months prior to the date of closing down, either—

(a) (i) to sell the station for his own benefit at any time after the date of closing down, and

(ii) to purchase the whole of the electricity supplied to him by the Board at the Grid Tariff, or

(b) (i) to require the Board to purchase the station at the date of closing down at a price determined under the Fourth Schedule, and

(ii) to purchase the whole of the electricity supplied to him by the Board on the terms hereafter set out in this Schedule.

6. Where a licensee exercises his option under paragraph 5 in terms of clause (b) thereof, the Board shall comply with the requirement to purchase under sub-clause (i) of that clause, and the following provisions of this Schedule shall apply.

7. As soon as practicable after the licensee has exercised his option as aforesaid, there shall be ascertained in agreement between him and the Board the following quantities in respect of each year of account subsequent to the date of closing down, namely:—

(a) The maximum capacity of the station, that is to say, the maximum capacity (expressed in kilowatts available for supply to feeders) of such plant and works appertaining to the generation of electricity at the date of closing down as would have been available for reliable and regular commercial operation on the first day of the year of account, had the station not been closed down under this Schedule and had no replacement of any major item of such plant or works been carried out.

(b) The number and size of units of plant and works, forming part of the aforesaid plant and works, which would have represented reasonable standby in the station.

(c) The standby capacity of the station, that is to say, the number of kilowatts (expressed in kilowatts available for supply to feeders) by which the maximum capacity of the station would be reduced if the standby plant and works referred to in clause (b) were to be left out of account.

(d) The agreed effective capacity of the station, that is to say, the number of kilowatts by which the maximum capacity exceeds the standby capacity.

8. As soon as practicable after the date of closing down there shall be ascertained in agreement between the Board and the licensee in respect of each of the three consecutive years of account immediately preceding the date of closing down (hereafter in this Schedule referred to as the basic years)—

(a) the sums expended by the licensee and wholly attributable to the generation of electricity under the following heads, namely:—

(i) fuel;

(ii) oil, water and stores consumed;

(iii) salaries and wages and any contribution by the licensee for pensions, provident fund, superannuation and insurance of officers and servant;

(iv) repairs and maintenance, and renewals not chargeable to capital account;

(v) management, rents, rates and taxes (including super-tax payable by the licensee as a company, but excluding other taxes on profits), insurance of plant and general establishment charges;

(vi) any other expense on revenue account;

(b) the actual effective capacity of the station on the first day of each such year agreed in accordance with the principles set out in paragraph 9 of the First Schedule.

9. As soon as practicable after the beginning of each year of account there shall be ascertained in respect of that year such annual charges by way of interest and depreciation attributable to the assets purchased by the Board under this Schedule as would have resulted from the application of clauses (e) and (f) of paragraph 1 of the Eighth Schedule, had those assets remained in the ownership of the licensee.

10. The licensee shall be entitled to purchase from the Board in each year of account at a price determined under paragraph 11—

(a) a number of kilowatts not exceeding the agreed effective capacity ascertained in respect of that year under paragraph 7, and

(b) a number of kilowatt-hours not exceeding the number of kilowatt-hours which bears the same proportion to the total number of kilowatt-hours required by the licensee in that year for the purposes of his undertaking as the agreed effective capacity ascertained in respect of that year bears to the total maximum demand of the licensee in that year for the said purposes.

11. The price payable by the licensee in respect of each year of account for the quantity of electricity specified in paragraph 10 shall be—

(*a*) in respect of kilowatts, a fixed charge equal to the sum of—

(*i*) an amount calculated from the expression "$\frac{A}{2}+\frac{A}{2}\times\frac{B}{C}$"

(*ii*) an amount calculated from the expression "$\frac{B\times D}{C}$" –

(*iii*) the annual charges by way of interest and depreciation ascertained in respect of the year of account under paragraph 9, where—

A = one-third of the total costs during the basic years under heads (ii), (iii), (iv) and (vi) set out in clause (a) of paragraph 8;

B = the agreed effective capacity for the year of account;

C = one-third of the sum of the actual effective capacities [ascertained under clause (b) of paragraph 8] for each of the basic years;

D = one-third of the total costs during the basic years under head (v) set out in clause (a) of paragraph 8;

(b) in respect of kilowatt-hours, a running charge per killowatt-hour ascertained—

(i) by multiplying the total number of tons of fuel consumed in the station in the basic years by the estimate agreed between the Board and the licensee of the cost per ton which would have been incurred in delivering and handling the same quantity of fuel of equivalent calorific value to the furnaces in the station during the year of account, and the station remained in the ownership of the licensee, and

(ii) by dividing the total cost so found by the total number of units sent out from the station in the basic years.

12. The price payable by the licensee for all electricity supplied to him by the Board in excess of the quantity specified in paragraph 10 shall be the Grid Tariff.

13. The licensee shall have the right at any time on giving the Board prior notice in writing expiring at the end of a year of account of purchase at the Grid Tariff the whole of the electricity supplied to him by the Board.

Provided that the Board in those circumstances may make it a condition that the licensee shall, until the date on which the agreed effective capacity of the station becomes nil, pay to the Board in each year of account in addition to the Grid Tariff a sum equal to such proportion as the Board may fix of the annual charges by way of interest and depreciation ascertained in respect of the year under paragraph 9:

Provided further that after the expiration of the said notice, the licensee shall not be entitled at any time to purchase electricity from the Board at the price ascertained under paragraph 11.

THE FOURTH SCHEDULE.

2. The price to be paid for any generating station or main transmission line purchased by the Board under this Act shall be such sum as may be certified by an auditor appointed by the Provincial Government in this behalf to have been the amount properly incurred on and incidental to the establishment of the station or main transmission line, as the case may be, less depreciation thereon on the scale set out in paragraph 3:

Provided that there shall be added to such sum as aforesaid on account of compulsory purchase, such percentage, if any, not exceeding twenty *per centum* on that sum, as may be payable under the licence of the licensee in respect of compulsory purchase:

Provided further if the Board or the owner of the station or main transmission line is dissatisfied with the sum so certified, the matter shall, in default of agreement between them, be determined as provided in section 74.

3. The scale of depreciation referred to in paragraph 2 shall be in respect of the portion of the prescribed period prior to the date of vesting,—

(a) for land owned under full title, including the cost of clearing the site, nil;

(b) for other assets specified in the Table appended to the Seventh Schedule, the amount which would be produced by the end of the said portion of the prescribed period if during that portion an allowance were made annually and accumulated at compound interest at the rate of 4½ *per centum per annum* of such an amount as would if made annually throughout the whole of the prescribed period and accumulated at compound interest at the said rate produce by the end of that period an amount equal to the original cost of the asset.

4. The auditor appointed under paragraph 2 shall be a person qualified under the provisions of section 144 of the Indian Companies Act, 1913 (VII of 1913) to act as an auditor of companies.

5. The auditor's costs under this Schedule shall be shared equally by the Board and the licensee concerned.

(3) "debenture capital" means capital raised against debentures or other instruments creating a charge or lien on the assets of the undertaking;

(4) "fixed assets" means fixed assets fairly acquired and required in the business of electric supply;

(5) "intangible assets" means goodwill, underwriter's commission and such preliminary and promotional expenditure debited in the capital account of the undertaking as has fairly arisen in promoting the business of electric supply;

(6) "ordinary capital" means the nominal amount paid up, or deemed to be paid up, of ordinary capital attributable to the undertaking of the licensee, whether subscribed in cash or issued for equivalent consideration;

(7) "original cost" means in respect of any asset the sum of—

(a) the cost of the asset to the licensee, including the cost of delivery and all charges properly icurred in erecting and bringing the asset into beneficial use,

(b) interest charges on capital expenditure properly attributable to the asset up to the date of bringing it into use,

(c) a proper addition on account of supervision, not exceeding fifteen *per centum* of the cost referred to in sub-clause (a),—

so however that the original cost of any asset shall not in any case exceed the original cost atrtibuted thereto in the books of the licensee;

(8) "preference capital" means the nominal amount paid up, or deemed to be paid up, of the capital attributable to the undertaking of the licensee, whether issued in cash or for equivalent consideration, issued on such preferred terms as the Board and the licensee may agree to be sufficient to qualify it for such description;

(9) "prescribed period" means in respect of each of the assets specified in the Table appended to the Seventh Schedule, the number of years or period specified therein in relation to such asset, running in each case from the beginning of the year of account next following that in which the asset becomes available for use in the business;

(10) "reasonable return" means in respect of any year of account the sum of the following, namely:—

(a) the amount found by applying the standard rate to the amount of capital employed at the end of that year, after deducting the sum of—

(i) the amounts written off or set aside on account of depreciation of fixed assets or write down of intangible assets in the books of the licensee as at the last day of his year of account ended in the year 1943,

(ii) the amounts so written off or set aside after the said day,

(iii) the amount of preference capital, debenture capital and other borrowed money,

(iv) the amount whichever is less by which Contingencies Reserve B falls short either of five *per centum* of the original cost of fixed assets or of the total of other reserves, in the computation of which the amounts referred to in this sub-clause as written off or set aside shall be left out of account,

(v) investments other than those required to be made under paragraph 4;

(b) the income derived from investments other than those required to be made under paragraph 4;

(c) half the difference between the interest payable on debenture capital (other than on loans advanced by the Board under paragraph 1 of the First Schedule) and such greater amount as would have been payable had the money been borrowed at the standard rate:

Provided that if the licensee represents to the Board that any amounts written off or set aside as are referred to in sub-clause (a) (i) were excessive and should be written back, there may be written back in the books of the licensee such amounts as the Board and the licensee agree to be reasonable, and the amounts referred to in sub-clause (a) (1) shall be deemed to be reduced by the amounts so written back:

Provided further that in any such representation the licensee shall be required to satisfy the Board *inter alia* that any amounts which he desires to write back as aforesaid have been found from reasonable profits in the past and not from excessive charges for the supply of electricity;

(11) "standard rate" means in respect of any year of account the average Reserve Bank rate for that year plus, in the case of an undertaking less than ten years old, 6½ *per centum*, or in any other case, 4½ *per centum*.

(12) "written down cost" means the original cost, less the amounts written off or set aside on account of depreciation or write down in the books of the licensee.

2. If the clear profits of a licensee in any year of account are in excess of that amount which affords a reasonable return, two-thirds of such excess shall be carried to a reserve to be called Tariffs and Dividends Control Reserve A.

3. (1) The licensee shall so regulate his financial policy that Tariff and Dividends Control Reserve A shall not, without the consent of the Board, exceed two-thirds of the amount of the reasonable return in any year of account.

(2) The said reserve shall be available for disposal by the licensee only to the extent in any year of account by which the clear profits are less than the reasonable return.

(3) On the purchase under the licence of the undertaking, any balance of the said reserve shall, after deducting such amount as would have been due thereon on account of income-tax had the said balance formed part of the profits of the previous year of account, be handed over to the purchaser or deducted in assessing the value of the undertaking for the purposes of purchase.

4. (1) There shall be created from existing reserves or from the revenues of the undertaking a reserve to be called Contingencies Reserve B.

(2) The amount of the said reserve or the first one lakh of rupees thereof, whichever is less, shall be invested in Government securities.

5. The licensee shall appropriate to Contingencies Reserve B from the revenues of each year of account a sum not less than one-quarter of one *per centum*, or more than one-half of one *per centum*, of the original cost of fixed assets:

Provided that if the said reserve exceeds, or would by such appropriation be caused to exceed, five *per centum* of the original cost of fixed assets, no such appropriation shall be made.

6. Contingencies Reserve B shall not be drawn upon during the currency of the licence except to meet such charges as the Board and the licensee may agree as being—

(a) expenses or loss of profits arising out of accidents, strikes or other circumstances which due care and management could not have prevented, or

(b) expenses of replacement or removal of plant or works, other than expenses required for maintenance or renewal,

(c) compensation payable under any law for the time being in force to officers or servants of the licensee, and not otherwise provided for.

7. (1) There shall be allowed in each year of account in respect of depreciation of fixed assets, such amount as will, after taking into account the sums already written off or set aside in respect of such assets in the books of the licensee, contribute sufficiently, in accordance with either the straight line method the compound interest method of depreciation amounting, towards the ultimate extinction from the balance sheet of the cost of each asset at the end of the prescribed period.

(2) The year in which any asset became available for use in the business and its cost shall, in the absence of satisfactory record, be agreed between the Board and the licensee.

Explanation.—That the licensee may have changed his method of depreciation accounting on one or more occasions in the past is not material so long as one of the methods specified in this paragraph is adopted from the date referred to in sub-section (1) of section 56, which taking account of the amount already written off or set aside in the books of the licensee, is designed to result in the extinction of the cost of each asset from the balance sheet at the end of the prescribed period.

Explanation 2.—If the compound interest method is used, annual interest on the accumulated balance will be allowed as an expense from revenue as well as the annual incremental deposit, both being component parts of the rate of depreciation under the said method.

8. (1) Where any fixed asset ceases to be available for use through obsolescence, inadequacy, superfluity or for any other reason, it shall be described in the books of the licensee as no longer in use, and no further depreciation in respect thereof shall be allowed as a charge against the clear profits.

(2) The written down cost of such a fixed asset shall be carried to a special account in the books of the licensee, and the amount thus shown shall be decreased by the amount for which the asset is sold or of its scrap value when actually realised.

(3) The resultant net balance attributable to such asset shall be charged against Contingencies Reserve B by equal annual instalment from the year of account in which the asset ceases to be available for use as aforesaid up to the date of the next option of purchase of the undertaking under the licence or up to the expiration of the prescribed period, whichever is earlier.

9. When any asset is fully written off in the books of the licensee, no further depreciation shall be allowed thereon.

10. Where any fixed asset is sold for an amount exceeding its written down cost, the excess shall be credited to Contingencies Reserve B.

11. Notwithstanding anything contained elsewhere in this Schedule, no sums shall, except with the consent of the Board, be carried to a reserve, and no dividends on ordinary or preference capital or any other distribution of profits shall be made, while any sum allowed in respect of depreciation under this Schedule remains to be written off in the books of the licensee.

12. Arrears of depreciation allowed under this Schedule but remaining to be written off in the books of the licensee may be taken into account as an expense for the purposes of assessing the clear profits in any year of account.

13. Receipts on account of service lines paid for by consumers and laid after the date referred to in sub-section (1) of section 56 shall not be included in the revenue account for the purpose of assessing the clear profits, and only the net cost of such service lines after deducting such receipts shall be included in the original cost of fixed assets for the purpose of ascertaining the capital employed.

14. (1) Subject to the provisions of sub-paragraph (2), the ordinary remuneration which may be paid to a managing agent by a licensee in respect of his undertaking in any year of account shall not exceed, without the consent of the Board, a sum based on a percentage of the net profits as follows, namely:—

(a) on the first five lakhs of rupees of such profits, ten *per centum*,

(b) on the next ten lakhs of rupees of such profits, seven *per centum*,

(c) on the next ten lakhs of rupees of such profits, four *per centum*,

(d) on all such profits in excess of twenty-five lakhs of rupees, two *per centum*,—

together with an office allowance not exceeding the minimum payment calculated under sub-paragraph (2).

(2) Where the net profits are absent or inadequate for the purposes of sub-paragraph (1), there may be made to a managing agent as ordinary remuneration in any year of account a minimum payment not exceeding one-fifth of one *per centum* of the total of the ordinary, preference and debenture capital of the undertaking.

(3) For the purposes of sub-paragraph (2), where the said total of capital—

(a) is less than five lakhs of rupees, it shall be deemed to be five lakhs of rupees;

(b) is greater than one crore of rupees, it shall be deemed to be one crore of rupees.

(4) For the purposes of this paragraph—

(a) "net profits" has the meaning assigned to it in sub-section (3) of section 87C of the Indian Companies Act, 1914 (VII of 1914);

(b) "ordinary remuneration" includes the usual services of directors, partners and proprietors of a managing agency (including the formulation or guidance of policy relating to the licensee's undertaking and the promotion and supervision of the business and general well-being of the undertaking), but does not include the salaries and wages of clerks, operators and other servants engaged by the managing agent for the business of the undertaking or the remuneration, salary or wages payable to managers, secretaries, engineers, electricians, bankers, solicitors, experts, commission agents, dealers, muccudums, brokers or other persons who may be engaged by the managing agent for or on behalf of the undertaking, or any expenses of like nature incurred in carrying on and conducting the business of the undertaking.

15. (1) Where the undertaking of the licensee is controlled by directors, the number of such directors shall not, without the consent of the Board, exceed five, unless the total of the ordinary, preference and debenture capital of the undertaking exceeds five lakhs of rupees; and for every additional ten lakhs of rupees or part thereof such capital, there may be added one director, so however that the total number of directors in no case exceeds twelve.

(2) Except with the permission of the Board, the remuneration of a director shall not exceed one hundred rupees a meeting in the case of the Chairman, or seventy-five rupees a meeting in any other case.

(3) For the purposes of sub-paragraph (2) "remuneration of a director" does not include the remuneration of a director who is required to devote substantially the whole of his time to the service of the undertaking in a managerial or technical capacity, or the remuneration of a managing agent.

16. (1) Where at any time within three years before the next option of purchase under the licence arises, the licensee proposes to make any capital expenditure which exceeds fifty thousand rupees in respect of any single item and in respect of which any amount would in the event of purchase

under the option be payable by the purchaser to the licensee the licensee shall before giving effect to such proposal inform the Board thereof.

(2) If the Board within one month from receiving such information objects to such expenditure as aforesaid, a question shall be deemed to have arisen between the Board and the licensee within the meaning of section 74, and such question shall be determined under that section.

17. Where the licensee without reasonable excuse fails to comply with any of the provisions of this Schedule, the Provincial Government may revoke his licence, and where a licence is revoked under this paragraph the provisions of the Indian Electricity Act, 1910 (IX of 1910) shall apply as if the licence had been revoked under that Act.

THE EIGHTH SCHEDULE.

(See the First and Third Schedules.)

Determination of cost of production of electricity at generating stations.

1. For the purposes of the First and Third Schedules, the cost of production of electricity at a generating station shall be ascertained by calculating and taking into account the following costs, charges and allowances in respect of the year of account, namely:—

(a) sums expended for fuel, oil, water and stores consumed, for salaries and wages, and any contribution by the licensee for pensions, provident fund, superannuation and insurance of officers and servants, for repairs and maintenance and for renewals not chargeable to capital account;

(b) sums paid in respect of the station as rents, rates and taxes (including super-tax payable by the licensee as a company but excluding other taxes on profits) and for insurance;

(c) the proportion of management and general establishment charges properly attributable to the station;

(d) any other expenses on revenue account properly attributable to the station;

(e) interest on money properly expended for capital purposes (whether defrayed out of capital or revenue) and attributable to the station, and interest on working capital properly attributable to the station and the production of electricity therein:

Provided that for the purpose of ascertaining the principal on which interest is payable within the meaning of this clause, there shall be left out of account any part of principal on which interest is payable out of capital;

(f) an allowance for depreciation of an amount determined in respect of the station in accordance with the scale set out in the Seventh Schedule.

2.—For the purposes of clause (e) of paragraph 1 of the rate of interest shall be—

(a) on such part of the principal on which interest is payable within the meaning of the said clause as has been advanced on loan by the Board under paragraph 1 of the First Schedule, the actual rate charged by the Board on the loan in the year of account;

(b) on the balance of the said principal,—

(i) where the licensee owning the station is a local authority, the average rate payable in the year of account on the money raised by that authority for the purposes of the station;

(ii) in any other case, 2½ *per centum per annum* over the average Reserve Bank rate in the year of account.

THE NINTH SCHEDULE.

(See the First Schedule.)

Allocation of costs of production at generating stations.

1. For the purposes of this Schedule—

(a) the average load Factor of a station shall be expressed as a percentage, and shall be ascertained by multiplying the number of kilowatt-hours supplied from the station during the year of account by 100, and dividing the product so obtained by the product of the average monthly maximum demand multiplied by the number of hours during which the station was in commission in the year of account;

(b) the average monthly maximum demand shall be the arithmetical average of the monthly maximum demands on the station in those calendar months during which the station was in commission in the year of account;

(c) a station shall be deemed to be in commission when the whole or any portion of the plant in the station is generating electricity or is in readiness to generate electricity upon demand;

(d) "cost of fuel" means the sums expended for fuel consumed *plus* the cost of any transport, handling, preparation or treatment incurred in connection with the delivery of fuel to the boiler hoppers, furnaces or engines and in connection with the disposal of the products or residues of combustion, *plus* the proportion of salaries and wages and any contributions made by the owner of the station for pensions, provident fund, superannuation and insurance of officers and servants properly attributable to such delivery of disposal, *less* any sums received from the sale of any products or residues of combustion;

(e) "cost of oil, water and stores" means the sums expended for oil, water and stores consumed;

(f) "cost of repairs, maintenance and renewals" means the sums expended for repairs and maintenance and for renewals not chargeable to capital account, together with the proportion of salaries and wages and any contributions made by the owner of the station for pensions, provident fund, superannuation and insurance of officers and servants properly attributable to repairs, maintenance and renewals;

(g) "salaries and wages" means the sums expended for salaries and wages and any contributions made by the owner of the station for pensions, provident fund, superannuation and insurance of officers and servants, less the proportion of such sums properly attributable to the cost of fuel under clause (d) and to the cost of repairs, maintenance and renewals under clause (f).

2. Of the costs of production of electricity at a generating station ascertained in accordance with the Eighth Schedule, the following costs,

charges and allowances in respect of the year of account shall be allocated as "fixed costs", namely:—

(a) of the costs, charges and allowances set out in clause (a) of paragraph 1 of the said Schedule, portions calculated from the appropriate formulae set out in paragraph 3;

(b) the whole of the costs, charges and allowances set out in the remaining clauses of paragraph 1 of the said Schedule.

3. The portion of the following costs, charges and allowances to be allocated as fixed costs shall be ascertained from the formula hereinafter set out against each, namely:—

(a) cost of fuel	$\frac{100}{100 + 12{\cdot}8\ L}$
(b) cost of oil, water and stores	$\frac{100}{100 + 9{\cdot}66\ L}$
(c) salaries and wages	$\frac{100}{100 + 0{\cdot}38\ L}$
(d) cost of repairs, maintenance and renewals ..	$\frac{100}{100 \quad 0{\cdot}0001\ NL}$

where—

L = the average load factor of the station;

N = the number of hours during which the station was in commission in the year of account.

4. The amount of the difference between the costs of production at a generating station ascertained in accordance with the Eighth Schedule and the fixed costs in respect of the year of account determined in accordance with this Schedule shall be allocated as "running costs".

5. The foregoing provisions of this Schedule shall not apply in any case where it is agreed between the Board and the owner of the station that the circumstances or conditions of operation in the station, whether temporary or continuing, are such that the said provisions ought not reasonably to be applied; and in such case the allocation between fixed costs and running costs shall be made in such manner as the Board and the said owner may agree.

STATEMENT OF OBJECTS AND REASONS.

The co-ordinated development of electricity in India on a regional basis is a matter of increasingly urgent importance for post-war reconstruction and development. The absence of co-ordinated system, in which generation is concentrated in the most efficient units and bulk supply of energy centralised under the direction and control of one authority is one of the factors that impedes the healthy and economical growth of electrical development in this country. Besides, it is becoming more and more apparent that if the benefits of electricity are to be extended to semi-urban and rural areas in the most efficient and economical manner consistent with the needs of an entire region, the area of development must transcend the geographical limits of a Municipality, a Cantonment Board or a Notified Area Committee, as the case may be. It has, therefore, become necessary that the appropriate Governments should be vested with the necessary legislative powers to link together under one control electrical development in contiguous areas by the establishment of what is generally known as the "Grid System". In the circumstances of this country such a system need not necessarily involve inter-connection throughout the length and breadth of a Province; regional co-ordination inclusive of some measure of inter-connection may be all that is needed. An essential pre-requisite is, however, the acquisition of necessary legislative power not only to facilitate the establishment of this system in newly licensed areas but also to control the operations of existing licensees so as to secure fully co-ordinated development.

2. Government feel that it is not possible to legislate for this purpose within the framework of the Indian Electricity Act, 1910, which was conceived for a very different purpose. In their view what is needed is specific legislation; on the broad lines of the Electricity (Supply) Act, 1926, in force in the United Kingdom, which will enable Provincial Governments to set up suitable organizations to work out "Grid Schemes" within the territorial limits of the Provinces. Although executive power under the proposed Bill will necessarily vest in the Provinces, two considerations indicate the necessity for Central legislation:—

(i) the need for uniformity in the organization and development of the "Grid System", and

(ii) the necessity for the constitution of semi-autonomous bodies like Electricity Boards to administer the "Grid Systems". In the view of Government it is bodies like these which are likely to be the most suitable organizations for working the "Grid Systems" on *quasi*-commercial lines. Such Boards cannot, however, be set up by Provincial Governments under the existing Constitutional Act as they would be in the nature of trading corporations within the meaning of Entry 33 of the Federal Legislative List.

3. The Notes on Clauses will briefly explain the main provisions of the Bill. Similar notes on the technical schedules have been enclosed.

Notes on Clauses.

PREAMBLE.

CHAPTER I.—INTRODUCTORY.

Clause 1.—The Bill is designed so that after it has been passed into Law by the Indian Legislature, any Provincial Government which wishes to adopt its provisions in supplementation of the provisions of the Indian Electricity Act, 1910, can do so.

Clause 2.—Definitions.

CHAPTER II.—PROVINCIAL ELECTRICITY BOARDS.

Clause 3.—This deals with the constitution of Provincial Electricity Boards. It ensures, *inter alia*, that these Boards shall contain at least three full-time members with adequate qualifications and who have not recently been directly connected with party politics. Provincial Governments have the option of appointing up to four additional members (who may be full-time or part-time) in consultation with interested parties.

Clause 4.—This Clause enables a Province which is not strong in technical experts to take advantage of the juxtaposition of a Province which has, or is about to constitute, a Board for itself, and to arrange by agreement with such a neighbouring Province for its Board to carry out the functions of the Act in both Provinces. The Clause is purely permissive, and the detailed arrangements between two Provinces as to their representation on the Board, financial considerations, etc., are largely left to be settled by mutual agreement. It has been necessary to ensure that where two Provinces have agreed in terms of this Clause, it shall not be an arrangement lightly to be dissolved. This is because the ownership of so much property previously belonging to either Province will have been transferred

to the joint Board. Hence the provision requiring an agreement under this Clause to have permanent effect. But that does not mean that the two Provinces could not terminate such an agreement by suitable legislation.

Clause 5.—Matters consequential on Clause 4.

Clause 6.—Provides for different terms of office of members of a Provincial Board, so as to ensure continuity of policy.

Clause 7.—A provision to ensure that full-time members of the Board shall be entirely disinterested parties.

Clause 8.—To ensure that Members of a Board (and particularly part-time members who are not affected by Clause 7) shall not vote when subjects come up in which they have an interest. The provision has a parallel in the Indian Companies Act, 1913.

Clause 9.—Deals with the usual provisions for disqualification of a member, and also debars a member from becoming directly connected with party politics.

Clause 10.
Clause 11.
Clause 12.
Clause 13.
Clause 14.
Clause 15. } Self-explanatory.

Clause 16.—Provides for the constitution and use of Regional Advisory Committees, which may be required by certain Provinces.

CHAPTER III.—POWERS AND DUTIES OF PROVINCIAL ELECTRICITY BOARDS.

Clause 17.—This sets out the main duties of Provincial Boards, namely to promote co-ordinated development of the supply of electricity within a Province in the most efficient and economical manner, with particular reference to such development of areas not for the time being served by any licensee. In particular the Boards are to—

(a) prepare and carry out schemes mentioned later in the Bill;

(b) supply electricity to owners of stations which are known as "controlled" stations under the Bill, and to licensees whose stations are closed down by the Board;

(c) supply electricity as soon as possible to any other licensees or persons requiring such supply and to whom the Board may be competent under this Act so to supply. This last reference to "competence" is dealt with in Clause 18.

Clause 18.—Provides that the existing statutory rights and obligations of a licensee under the Indian Electricity Act, 1910, shall not be derogated by a Board unless a licensee is not himself carrying out his development duties satisfactorily.

Clause 19.—Gives powers to a Board to promote the development of electricity by the manufacture, purchase, sale or hire of apparatus. Also provides that a Board may maintain shops and show-rooms, and conduct advertising campaigns.

Clause 20.—Enables a Board to investigate the possibilities of co-ordinating sources of thermal and water power in a Province. The approval of the Provincial Government is necessary before the Board undertakes water power investigations as this is a purely provincial subject.

Clause 21.
Clause 22 } Self-explanatory.

Clause 23.—Enables a Board to subscribe to associations conducted for purposes conducive to the development of electricity.

Clause 24.—Enables a Board to appoint consulting engineers.

Clause 25.—Gives to a Board all the powers and certain obligations applicable to a licensee under the Indian Electricity Act, 1910. A Board's obligations as a licensee are qualified in that certain sections of that Act applicable to ordinary licensees would be in conflict with the specific requirements of this Bill appertaining to a Board alone.

Clause 26.—Self-explanatory.

CHAPTER IV.—BOARD'S WORKS AND TRADING PROCEDURE.

Clause 27.—Relates to the preparation of schemes by a Board, and outlines broadly what these schemes may cover. It is not necessary for purposes of the main provisions of a scheme that a Board should have to go into details of all its proposed trading arrangement and its proposed distribution of electricity from major transmission lines. It will suffice to give a general outline of the major works to be undertaken, and their costs, so that the Board's proposals can be apprised by the public and other interested parties.

Clause 28.—Provides for publication of a Board's scheme, and for consultation, in respect of any really large schemes (exceeding Rs. 25 lakhs of capital expenditure), with the Central Government's Technical Power Board. The latter organisation is an advisory body, and the object of requiring such consultation with it is in the interests of nation-wide co-ordination.

Clause 29.—Sets out the particular aspects of co-ordination to which the Central Technical Power Board must give primary consideration.

Clause 30.
Clause 31. } Self-explanatory.
Clause 32.

Clause 33.—Governs the procedure to be adopted when the Board selects a generating station to be a "controlled" station. Such "controlled" stations will form the backbone of an economically co-ordinated supply system. The trading relationship which a Board may statutorily insist upon between itself and a controlled station is set out at length in the First Schedule. Circumstances may dictate that all the provisions of the First Schedule are not necessarily desirable in every case, and hence the Board and the owner of the controlled station may agree, under clause 46, to modify the trading provisions of the First Schedule.

Clause 34.—Enables a Board to give a part supply of electricity to a licensee owning a generating station, where the Board does not consider it expedient to make that station a "controlled station". Here again Clause 46 ensures that the provisions of the relevant Schedule (Second Schedule) need only be applied if the Board and the owner of the station do not desire, or cannot agree, to alternative terms.

Clause 35.—Enables a Board permanently to close down generating stations which it considers uneconomic, where it can make other suitable arrangements for the supply of electricity. Here again Clause 46 provides for alternative arrangements if the Board and the licensee agree in lieu of the provisions of the First or Third Schedules.

Clause 36.—Deals with the transfer of, and payment for, generating stations or main transmission lines purchased by a Board. Unless otherwise agreed under Clause 46 the provisions of the Fourth Schedule will apply.

Clause 37.
Clause 38. } Self-explanatory.
Clause 39.

Clause 40.—Enables a Board to use any transmission lines of a licensee for his own purposes if there is surplus capacity available in the lines. The terms of such use may be arranged by agreement or the Board may rely on the provisions of the Fifth Schedule.

Clause 41.—Gives the Board the powers of the Telegraph Authority in respect to the placing of transmission apparatus in circumstances where its powers as a licensee under the Indian Electricity Act, 1910, would not be adequate for the purpose. In particular the powers of the Telegraph Authority might be required when laying transmission lines across long stretches of open country, but these powers cannot be used in respect of any particular line unless such use has been specified in a sanctioned scheme in connection with that line.

Clause 42.—Gives a general power to a Board to enter into arrangements for purchase or sale of electricity with any person (whether a licensee or not). It also gives qualified additional powers to the Board to enter into similar arrangements with any neighbouring Province, or other authority outside the Province.

Clause 43.—Gives to a Board a qualified right to control the establishment of new generating stations or the extension of old generating stations (whether owned by a licensee or not). This provision is in the interests of national economy. The Board is required to show good reasons before exercising control.

Clause 44.—Enables a Board to enforce its directions concerning the closing down of generating stations or establishment, or extension of plant.

Clause 45.—Sets out the main principles governing the quotation by a Board of a special tariff at which it will sell electricity to a licensee in each area for which a scheme is in force.

Clause 46.—This is a clause enabling a Board to make arrangements in respect of its trading with a licensee by mutual agreement, if it feels that circumstances require the specific provisions of the First, Second, Third or Fourth Schedules to be modified. However, the Board is required at all times not to show undue preference.

Clause 47.—Removes any previously existing legal objections against the carrying out of arrangements sanctioned by the Bill.

Clause 48.—Gives a Board wide powers to regulate its tariffs for supply to all persons requiring electricity (other than licensees), subject always to the requirement that undue preference shall not be shown.

Clause 49.—Brings it to notice that a Board cannot attempt to enter into certain arrangements unless it is in a position to carry out one of the fundamental requirements of any such arrangement, namely, that the Board can supply the other party's requirements of electricity itself, and is not debarred from so doing by Clause 18.

Clause 50.—Deals with provisional payments of monies due to and from a Board until final accounts can be settled.

Clause 51.—Is to ensure that excessively low power factors shall be remedied, if required by a Board, where it is selling electricity to a licensee. The Board can make regulations governing the power factor in connection with its supply to other persons under Clause 48.

Clause 52.—Ensures to a Board that its arrangements shall not be hindered by lack of available facilities.

Clause 53.—Ensures that a Board shall have means at its disposal to measure and control supplies of energy under the Bill.

Clause 54.—A general provision requiring all licensees to obey a Board's directions in respect of economy and efficiency in the operation of their generating stations. Penalty for disregard of this provision is laid down in Clause 75.

Clause 55.—Ensures that no licensee owning a generating station can, without valid reasons approved by a Board, avoid the objects of the Statute by hiring or leasing a generating station. It will be remembered that, as it is a duty of a Board to insure the best possible development of electric service, the Board cannot be unreasonable in its interpretation of this clause.

Clause 56.—Introduces the important Sixth Schedule and governs price control by a Board with respect to licensees not being local authorities.

Clause 57.—Extends the provisions of price control by a Board to licensees who are local authorities, and in whose cases the provisions of the Sixth Schedule are not entirely suitable owing to special features of public financing.

NOTE:—Clauses 56, 57 and the Sixth Schedule, are under reference to a special Central "Advisory Board" set up under section 35 of the Indian Electricity Act, 1910. The recommendations of this Advisory Board have yet to be received for further consideration by the Central Government.

CHAPTER V.—THE BOARD'S FINANCE, ACCOUNTS AND AUDIT.

Clause 58.—Covers the general principle of a Board's finance, namely, that as far as practicable the operations of the Board shall not be carried out at a loss, after taking into account any subsidies received from the Provincial Government, and that the Board's charges shall be adjusted accordingly. The clause also provides that working expenses may be paid out of capital if circumstances warrant, subject to the approval of the Provincial Government.

Clause 59.—Refers to the taking over by a Board of all relevant obligations incurred by the Provincial Government prior to the constitution of the Board.

Clause 60.—Regulates the submission by a Board of annual financial statements to the Provincial Government. Such statements are to be laid before the Provincial Legislatures, for discussion but not vote.

Clause 61.
Clause 62. } Self-explanatory.
Clause 63.

Clause 64.—Gives power to a Board to borrow, subject to approval of the Provincial Government by the issue of bonds of stock. The Clause also provides that the Board may not amortise its borrowings. This is because the Board is required under Clause 67 to provide adequate depreciation of its assets, and borrowings should not be separately amortised.

Clause 65.
Clause 66.
Clause 67. } Self-explanatory.
Clause 68.

CHAPTER VI.—MISCELLANEOUS.

Clause 69.—Provides that the contents of the Bill shall take precedence where they conflict with other laws or instruments.

Clause 70.—Transfers to a Board the rights previously vested in Provincial Government or local authorities in respect of purchase of undertakings, where option to purchase arises under the Indian Electricity Act, 1910.

Clause 71.—Requires that where a Provincial Government desires to develop water power for electrical purposes, it shall give the Board the first option to undertake the work.

Clause 72.—Self-explanatory.

Clause 73.—Ensures that the Board shall make proper annual report to the Provincial Government, which reports shall be published, and that the Board shall have power to obtain necessary information for the compilation of statistics from all persons supplying electricity.

Clause 74.—Provides that all questions arising under the Bill shall, in default of agreement, be settled by arbitration. This is essential in view of the technical nature of most of the questions which may arise.

Clause 75.
Clause 76. } Self-explanatory.
Clause 77.

Clause 78.—Exempts a Board from liability to pay Central Government taxes. The Board is not, under the Bill, exempted from payment of Provincial Government and local taxes (this being a purely Provincial subject), but Provincial Governments themselves can legislate such exemption if they so desire.

Clause 79.
Clause 80. } Self-explanatory.

FIRST SCHEDULE.

This Schedule sets out the trading procedure upon which the Board may (in the absence of agreement to the contrary) insist as between itself and the owner of a controlled station—*vide*, Clauses 33 and 35. The provisions are mainly of a technical nature, but the following points are particularly notable:

PART I.

Assumption of Control.

Paragraph 1 (1).—Details the directions which a Board may give to the owner of a station for effecting control of generation. Provides also that the owner of a controlled station shall supply to the Board all the electricity generated at the station. The Board is under obligation to supply back to the owner the whole of his own requirements of electricity under paragraph 2.

Paragraph 1 (2).—Provides that, if a Board wishes to do so, it may itself put up the money for any extensions to a controlled station, in lieu of the licensee doing so himself.

Paragraph 2.—Requires a Board to supply to the licensee, and the licensee to take from the Board, the whole of his requirements of electricity, subject to certain qualifications.

Paragraph 3.—Provides that the owner of a controlled station shall not, after the date of control, purchase power from a source other than the Board, except with the approval of the Board, or for a limited period.

Paragraph 4.—Provides that the Board shall pay to the licensee, for the whole of the energy supplied to the Board (*vide* para. 1), the whole of the costs of generation.

Paragraph 5.—Provides that the licensee shall pay to the Board, for the energy purchased by him from the Board for his own requirements, the whole of the costs of generating such requirements.

Paragraph 6
Paragraph 7. } Self-explanatory.
Paragraph 8.

PART II.

Price to be paid for electricity supplied by the Board under Part I.

These are technical-financial provisions laying down the basis upon which the price shall be fairly determined.

PART III.

Permanent closing down of a controlled station.

This Part provide that where the Board considers that a controlled station has ceased to be an economic unit it may be permanently closed down. This Part also prescribes the obligations of the Board to continue to supply all his requirements of electricity to the owner of the station which has been closed down, at a price not greater than that at which he himself could have generated, with the same plant, had his station not been closed down. Also prescribes that the owner of the station shall have the option to sell the station to the Board at a fair price, or to dispose of it himself.

PART IV.

Purchase by the Board of a controlled station not to be closed down.

This Part gives the Board an option to purchase a controlled station when its own interest in the user thereof has exceeded the licensee's user. Provides also for a fair price to be paid for the purchase and lays upon the Board an obligation to supply all the owner's requirements of electricity at a price not greater than that at which the station could have generated had it not been purchased by the Board.

SECOND SCHEDULE.

Supply by a Board to licensees owning stations other than controlled stations.

This Schedule sets out the price at which (unless otherwise agreed) the Board may give a part supply of electricity to the owner of a station which has not been controlled. See Clause 34.

THIRD SCHEDULE.

Closing down of generating stations other than controlled stations.

Provisions here are generally similar to the provisions contained in Part III of the First Schedule, but for technical reasons are not identical in points of detail. See Clause 35.

FOURTH SCHEDULE.

Price to be paid for generating stations and main transmission lines purchased by the Board.

This Schedule lays down that the Board shall pay a fair price based upon the original cost of the assets, less depreciation determined in accordance with a prescribed scale. The Schedule also allows such a premium on account of compulsory purchase as the owner would have been entitled to had the assets been purchased under the terms of the Indian Electricity Act, 1910. See Clause 36 and First and Third Schedules.

FIFTH SCHEDULE.

Charges for use by a Board of transmission lines and main transmission lines.

This Schedule contains technical-financial provisions to ensure that the Board pays a fair hire charge for the use of transmission lines. The Board may agree to alternative terms. See Clause 40.

SIXTH SCHEDULE.

Financial provisions to be incorporated in licenses.

This Schedule lays down the methods which a licensee (other than a local authority) shall adopt in respect of finance. This question is closely bound up with that of price control by the Board—See Clause 56. The Schedule is designed to secure that a licensee shall not be permitted to earn more than is necessary to provide him with a reasonable return and enable him to raise funds in the market necessary for the proper continuity of his public duties.

SEVENTH SCHEDULE.

Depreciation of Assets.

This *Schedule and the Table appended prescribe* the methods of determining the amount of annual depreciation to be

(i) set aside by the Board in respect of its own assets,

(ii) used in the computation of hire charges for transmission lines,

(iii) used in the computation of prices for the supply of energy to and by the Board in respect of licensees owning controlled stations or whose stations have been shut down under the Statute. See Clause 67 and the Fifth and Eighth Schedules.

The Table to the Seventh Schedule is also applicable (but not the rest of the Schedule) in connection with

(a) price control—See Clause 56 and the Sixth Schedule,

(b) purchase of assets by the Board under the Bill. See the Fourth Schedule.

EIGHTH SCHEDULE.

Determination of the cost of production of electricity at generating stations.

This Schedule is required in connection with the First and the Third Schedules, in respect of the computation of the price of electricity at controlled stations and stations which are closed down under the Statute.

NINTH SCHEDULE.

Allocation of costs of production at generating stations.

This is required in connection with the computation of the price of electricity at controlled stations under the First Schedule only.

(iii) that a person employed by him for the purposes of his business of pharmacy has been convicted of any such offence or has been guilty of any such misconduct as would, if such person were a registered pharmacist, render him liable to have his name removed from the register under clause (ii):

Provided that no such order shall be made under clause (iii) unless the Executive Committee is satisfied—

(a) that the offence or misconduct was instigated or connived at by the registered pharmacist, or

(b) that the registered pharmacist has at any time during the period of twelve months immediately preceding the date on which the offence or misconduct took place, committed a similar offence or been guilty of similar misconduct, or

RESOLUTION No. 905Pl.

Calcutta, the 26th March 1946.

It was brought to the notice of Government that in the case Emperor *versus* Anukul Chandra Dey and two others under section 411, I.P.C., strictures were passed on the 2nd February 1943, by the Additional Chief Presidency Magistrate, Calcutta, on the conduct of Sub-Inspector Pravakar Mukherjee of the Detective Department of the Calcutta Police. The court formed the opinion that the charges in respect of some of the articles against the accused in the case were due to a conspiracy to which the police were a party. The court also found that the said Sub-Inspector had confessed that there had been tampering with some of the exhibits of the case. Government considered that these allegations which were publicly made by a Magistrate which the police officer had no opportunity of refuting, and which, if proved, would require disciplinary action against the officer, were very serious, and should not go unnoticed. They, therefore, decided to appoint a Commission consisting of Mr. A. S. Hands, C.I.E., M.C., I.C.S., Commissioner of the Presidency Division, and Mr. B. K. Guha, I.C.S., Additional District and Sessions Judge, 24-Parganas, to enquire into the allegations against the officer, and directed them to submit their opinion on the case to Government. The Commission having concluded their enquiry have submitted to Government their report in which they have come to the conclusion that the findings of the Additional Chief Presidency Magistrate, Calcutta, against the Sub-Inspector were not justified.

2. Government after careful consideration have accepted the findings of the Commission and have exonerated the police officer from all blame in the matter.

Order.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered further that the resolution together with the Report of the Commission be published in the *Calcutta Gazette*.

By order of the Governor,
H. S. E. STEVENS, Secy.

Report of Commission consisting of Mr. A. S. Hands, C.I.E., M.C., I.C.S., Commissioner, Presidency Division, and Mr. S. K. Guha, I.C.S., District and Sessions Judge, 24-Parganas, appointed by Government of Bengal, Home Department, Police, Resolution No. 938Pl., dated 27th March 1945, to enquire into allegations made by the Additional Chief Presidency Magistrate on the conduct of Sub-Inspector Pravakar Mukherji of the Detective Department of the Calcutta Police in the case "Emperor versus Anukul Chandra Dey and two others under section 411, Indian Penal Code".

1. We are required only to enquire into the allegations made against the Sub-Inspector Pravakar Mukherji by Mr. J. Ahmed, Additional Chief Presidency Magistrate, in his judgment, dated 2nd February 1943, in the abovementioned case, and to "submit our opinion on the case".

2. The allegations, as described in the Resolution, are:—

(1) that the charges in respect of some of the articles against the accused in this case were due to a conspiracy in which the Police were a party;

(2) that Sub-Inspector P. Mukherji had confessed that there had been tampering with some of the exhibits in the case.

3. The judicial records of the case were in the High Court in connection with petitions filed before the High Court by the Sub-Inspector P. Mukherji, and by Mr. H. N. Sircar, Deputy Commissioner of Police, Detective Department, and Rai Bahadur S. N. Mukherji, Assistant Commissioner of Police, Detective Department, relating to matters arising out of observations made by the Additional Chief Presidency Magistrate in this case. Through Government we have obtained these records and persued them in so far as they relate to our terms of reference in Government's Resolution under which we are acting. We have also obtained from the Commissioner of Police, Calcutta, and perused the papers in his department relevant to the matters about which we have been directed to enquire and submit our opinion.

4. The method we have adopted has been for each of us to examine independently the relevant papers in these records and then to discuss them jointly and form our conclusions.

5. The first conclusion which we have reached by this method is that no possible useful purpose could be served by examining any witnesses. Apart from the fact that the Government Resolution gave us no power to call for and enforce the attendance of witnesses, it is clear to us from the records that we can form our opinion on the basis of sworn testimony in the court and on the other documentary material before us.

6. Moreover we presume that the allegations made by the Additional Chief Presidency Magistrate were based only on the evidence before him, and having regard to our terms of reference we are only called on to give our opinion whether his allegations on the evidence before him are justified or not.

7. Our other conclusions in this matter will be found below, but to make this report self-contained it is first necessary to give a brief account of the circumstances leading to the allegations made by the Additional Chief Presidency Magistrate.

8. The case under section 411, Indian Penal Code, against Anukul Chandra Dey and two others arose out of a search in December 1941 of the place occupied by them in the course of which a very large quantity of jewellery and other articles valued at about Rs. 50,000 was seized. Steps were then taken by the Calcutta Police to trace the owners of the property. One of the articles found was a gold spring wrist band (Exhibit IV). This wrist band bore the name of Kumar Gopika Raman Roy, the crest of his estate, and the words "Dewan Manickchand Estate". This led to further enquiries as a result of which the Sub-Inspector Pravakar Mukherji went to Sylhet in March 1942 with certain ornaments (including Exhibit IV) found in the search and showed them to Kumar Gopika Raman Roy. Of these the Kumar identified Exhibit IV, the wrist band with inscription, Exhibit XII a wrist watch band, Exhibit XIII a wrist watch, Exhibit XIV a ring, and Exhibit XV a necklace. The reason for his identification was that his initials the letters "G. R." were engraved on Exhibits XII, XIII and XIV, and on the clasp and under the locket of the necklace Exhibit XV. These are articles about which the Magistrate has held that there was a conspiracy between the Sub-Inspector P. Mukherji and the Kumar.

9. The prosecution case based on the evidence of the Kumar, is that these articles were stolen from his house in Calcutta in 1940, when a large number of ornaments were stolen amounting in value to about Rs. 25,000. It is admitted by the prosecution that in the case then started these articles were not included in the list of stolen property.

10. It is also admitted by the prosecution that in the search list prepared in the case against Anukul Dey and two others, no mention had been made of certain articles bearing the inscription "G. R." nor was this mentioned in the list subsequently published in *Calcutta Police Gazette*.

11. Having elicited these admissions the defence suggested in cross-examination and presumably in argument that when the Sub-Inspector went to Sylhet with certain ornaments and showed them to Kumar Gopika Raman Roy, he in collusion with the Kumar had the letters "G. R." engraved on Exhibits XII, XIII, XIV and XV by Ram Hari Singh, the goldsmith (P .W. 16), in order to fabricate evidence of identity which had previously not appeared in the list of articles stolen in 1940, nor in the search list in 1941 in this case, nor in the list published in the *Calcutta Police Gazette*. It was also suggested that the locket attached to the necklace Exhibit XV had been detached from another exhibit not concerned with this case and attached to Exhibit XV to fabricate evidence of identity.

12. The defence produced no witnesses in support of these suggestions. Indeed the defence produced no witnesses at all. They merely made these suggestions unsupported by any evidence from their side.

13. The Magistrate accepted the suggestions put forward by the defence and in his judgment recorded his finding:—

(1) that the Sub-Inspector had conspired with the Kumar to fabricate evidence of identity by inscribing the letters "G. R." on four exhibits and by attaching the locket to the necklace Exhibit XV,

(2) that the Sub-Inspector "confessed that the locket of Exhibit XV (necklace) was taken away from Exhibit II/2 (a ring not included in the charge) and linked with it to fabricate evidence of identity".

It is on these two findings of the Magistrate that we are required to submit our opinion.

14. The grounds on which the Magistrate arrived at these findings have been stated on pages 3, 4 and 5 of the typed copy of his judgment. The findings are based mainly on:—

(1) the admitted fact that in the original list of stolen property in the 1940 theft these articles were not mentioned;

(2) that in the search list of this case the letters of identity "G. R." are not mentioned;

(3) that in another case in connection with the same search list the Magistrate (the same Magistrate) had reached the conclusion that the search list had been tampered with long after it was prepared, for the benefit of the prosecution;

(4) the oral evidence of the only witnesses examined and cross-examined on these points, namely, Sub-Inspector Pravakar Mukherji (P. W. 8), Ram Hari Singh, the goldsmith (P. W. 16), and Kumar Gopika Raman Roy whose evidence was taken on commission.

15. The omissions in items (1) and (2) of paragraph 14 are admitted by the prosecution and it was these omissions and admissions which provided the accused with a good line of defence. With regard to item (3) we are satisfied that there was no justification for holding that the search list had already been tampered with in another case to benefit the prosecution. It appears that this finding arose out of the fact that a copy of the search list supplied to the defence and certified by the investigating officer to be a true copy differed slightly from the original. It has been explained in departmental proceedings which we have perused that this happened because the investigating officer did not carefully compare the typed copy of the search list with the original before attesting it as a true copy. We see no reason not to accept this explanation.

16. It remains therefore to consider item (4) of paragraph 14, namely, whether on consideration of the oral evidence of the Sub-Inspector Pravakar Mukherji, the goldsmith Ram Hari Singh, and Kumar Gopika Raman Roy, there is justification for the Magistrate's finding and the defence suggestion that they had conspired together to fabricate evidence of identity of the exhibits in question.

17. We have carefully examined the evidence of these three witnesses and have been unable to find anything in it which would confirm or support the defence suggestion of fabrication of evidence, or which is inconsistent with the prosecution explanation of the failure to record in the original list of stolen properties in the theft of 1940, or in the search list of this case, the identification marks of "G. R." on the exhibits in question. The explanation is that after another theft in 1937 where the question of identity arose, the Kumar's wife without reference to the Kumar directed the goldsmith to inscribe the initials "G. R." on certain ornaments for the purpose of identification in future. When the theft of 1940 took place the Kumar was not aware of this, and when the list of properties stolen were reported these and the marks of identification were not included by mistake. We do not think this is an unreasonable explanation in view of the number of ornaments stolen on that occasion and of their value, some Rs. 25,000. The next explanation is that when in the search in 1941 a list of the properties found in the search was being made during the night over a period of several hours, the Sub-Inspector wrote out the list at the dictation of a man who, though a respectable citizen, was not cited as a witness. This man did not notice, or did not think it necessary to state, that "G. R." was found on some of the articles, and the search list was made accordingly. Having regard to the number of articles and the length of time taken in making the list we do not think that this explanation is unreasonable. It may be that it indicated lack of sufficient care and attention on the part of the investigating officer but we do not consider that it can be held to indicate or prove that at that time the letters "G. R." were not in fact on the ornaments at all. The next explanation is that when the Sub-Inspector took the ornaments to the Kumar at Sylhet the Kumar took them inside the house to show them to his wife. His wife then pointed out the letters "G. R." and told the Kumar for the first time that she had had these letters engraved on some ornaments. In the absence of any positive evidence to the contrary, and none has been produced, we do not see any grounds to disbelieve this explanation. In our view the explanations given are not unreasonable, nor improbable nor are they inconsistent with the prosecution case.

18. The Magistrate has laid stress on the finding of the wrist band XV with the name of the Kumar and his crest on it and has held that the accused persons would hardly have retained this if they had come by it dishonestly. The Kumar's explanation is that he had this wrist band prepared for one Tarak Rani Dassi as a present for her dancing in theatrical performance, organised by him. He was unable to give it to her because he had to go to Delhi to attend the session of the Central Assembly of which he was a member. The wrist band was therefore kept with his wife's ornaments and was stolen in the theft of 1940. The Magistrate has held that this is unlikely and that in fact the Kumar must have presented the wrist band to the dancing girl and it must have subsequently been pawned. This is a matter of opinion and it overlooks the statement of the Kumar, that his wife and daughters took part in the theatrical performances in which Tarak Rani Dassi also took part. In view of that statement it is equally possible to take the view that the Kumar's explanation is genuine.

19. In this case proceedings were drawn up against the officer conducting the prosecution and he was dismissed by the Deputy Commissioner of Police. He appealed to the Commissioner of Police and we find that in his order dismissing the appeal the Commissioner of Police observed:—

> "In this case I happen to know that the monogram on the watch was not forged as it was shown to me by the Deputy Commissioner, Detective Department, as soon as the recovered properties were brought to Lall Bazar."

20. Our conclusions therefore are that there was no justification for accepting the defence suggestion and holding that the Sub-Inspector Pravakar Mukherji with Kumar conspired to fabricate evidence of identity by getting the letters "G. R." inscribed on the ornaments long after the search list had been prepared.

21. The other finding of the Magistrate is that the Sub-Inspector "confessed that the locket of Exhibit XV (necklace) was taken away from Exhibit IL/2 (a ring not included in the charge) and linked with it to fabricate evidence of identity."

With regard to this it is only necessary to read the evidence of the Sub-Inspector to see that he never made any such confession at all. All he said was "It is possible that the locket of Exhibit XV is the locket of Exhibit IL/2. I am unable to explain where the locket has gone. It is possible that the Kumar took it from the ring and had it tied with Exhibit XV." These answers were obviously in reply to questions whether such things were possible. The Sub-Inspector obviously told the truth when he said they were possible because the Kumar had the ornaments for a few minutes when he took them into his house to show them to his wife. This however cannot in our opinion be construed as a confession by the Sub-Inspector as alleged in the Magistrate's judgment.

22. Our conclusion on this point therefore is that there was no justification for the finding of the Magistrate that the Sub-Inspector "confessed that

the locket of Exhibit XV (necklace) was taken away from Exhibit II/2 (a ring not included in the charge) and linked with it to fabricate identity."
